

BAKER GIVES
UP FIGHT TO
INCREASE
STATE TAXES

Senator Painter Convinces
Governor It Will Not Be
Necessary to Boost Rate
to Get Needed Revenue.

BEEBLE, HOWEVER,
WILL PUSH BILLS

Appropriation of at Least
\$3,250,000 for the Uni-
versity to Be Put in Bill
by Senate.

By CURTIS A. BETTS,
A Staff Correspondent of the Post-
Dispatch.

JEFFERSON CITY, Feb. 25.—It now has become virtually certain that Gov. Baker will not make an aggressive fight for an increase in either the State property tax rate or the corporation franchise tax rate, and that there will be no increase of taxation by the Legislature.

That appears to be the outcome of the two conferences between the Governor and leaders of the Senate and House, the second of which took place late yesterday. At its conclusion the Governor said he had no specific recommendation to make to the Legislature, and indicated that it was improbable that he would deal with the subject of taxation and revenue in a special message.

Governor Abandons Plan.

While there is a general agreement of opinion that there will be no tax increases, there is a difference of opinion as to whether the revenues will be sufficient for State needs. However, Senator Painter, Democratic leader of the Senate, was able to convince the Governor of the sufficiency of the revenue to a degree that caused him to abandon plans announced earlier in the day to ask the Legislature to add 2 cents to the State property tax rate and increase the corporation franchise rate 50 per cent.

An effort will be made to pass the two bills, however, but unless there is another switch of the executive mind, it will not have the aggressive support of the Governor.

Tax Measures Face Defeat.

Representative Beedle of St. Louis, chairman of the House Ways and Means Committee, said today that the Legislature would not pass the tax measures. The Governor said they "could take their course," which means, that in the absence of executive influence behind them, they will fail. It is probable they would pass either the House or the Senate, but the measures in the House of Representatives if that should be attempted, it is doubtful if it would succeed, as there are several Republicans who would hesitate long before consenting to be bound by the caucus.

Senator Cave, chairman of the Senate Appropriations Committee, in a statement supporting one issued yesterday by Senator Painter, said that the Legislature would have more funds to appropriate this year than were available to the Legislature in 1923. There was no complaint of under appropriation.

Question of Business Policy.

The question of business administration, Cave said, "During the four years of the Gardner administration, the revenue from all sources for the general revenue fund was \$21,493,361.32. With this amount of revenue, the State Government and the Institutions were adequately administered. At the close of that administration there was a net balance of \$2,250,000 in the Treasury.

Income Near \$16,850,000.

"The Tax Commission estimates that the general revenue fund for the present biennium at \$14,402,792.73. This is largely a guess, as shown by the fact that for the last year the income tax for the State was \$1,476,000 above the Tax Commission estimate. A very careful investigation of the income for 1925 and 1926 shows the amount very close to the estimate. If this is true, we can appropriate more liberally for the Institutions than two years ago."

There has developed no tendency among the Democratic Senators to abandon their caucus decision of several weeks ago to op-

pose all tax increases. Unless he abandons it, there will be increases, Senator Cave, who represents the State University and who is particularly interested in getting sufficient funds for the university, inclines his statement an assertion it would not "be stamped out." He says the university has sufficient funds for the education and eleemosynary institutions out an increase of taxes.

The holding of appropriations within present revenues is not a new idea, says Senator Cave. The State University. When the House Committee had to place the university appropriation at \$2,471,700, that act required Monday, Tuesday, Post-Dispatch yesterday, a night a subcommittee was asked to revise the estimates. However, the House Committee appropriated at least \$3,000,000 for the university. The bill when it reached Senate.

There is a general understanding here that that amount is not sufficient to meet the authorities, although they are more than \$6,000,000.

ST. LOUIS FLYING CLUB COMMENDS MITCHELL

Coolidge Requested in Telegram to Correct Conditions in Air Forces.

Criticism of "stay-at-home politicians" and commendation of Brigadier-General William Mitchell, for his revelations of the inadequacy of military aircraft in this country, are contained in a resolution adopted last night at a special indignation meeting of the Flying Club of St. Louis.

The following telegram to President Coolidge, signed by the Flying Club, was made public today:

"At a meeting of the board of directors of the Flying Club of St. Louis, it was unanimously resolved that Gen. William Mitchell be highly commended in his efforts to show the people of the United States the utter inadequacy of our air forces for either offense or defense.

"While some of Gen. Mitchell's statements may have been made in a spirit of over enthusiasm, but nevertheless in a spirit of true patriotism, he is correct in his major efforts even at the risk of losing his military office.

"Many of us have served with this gallant officer during his brilliant career and have offered our lives with him on the sacred altar of patriotism. Our intimate knowledge of this exceptional man and the extremely adverse conditions confronting all of us in France, due to inadequate equipment, help us to appreciate and fully understand the sincerity of his purpose and efforts.

"Gen. Mitchell, unquestionably a dyed-in-the-wool patriot, one who has distinguished himself as few others have done during the world's conflict, should be highly commended for his past bravery and the further patriotism displayed in his efforts to expose the deplorable conditions existing in the most important branch of our national defense.

"It is therefore resolved that you, the President of the United States, be requested to correct the conditions exposed by Gen. Mitchell, and that the General be restored to his office and full rank immediately without further humiliation at the hands of stay-at-home politicians."

Earth Shocks in Alaska.

ANCHORAGE, Alaska, Feb. 25.—A heavy earth shock began here at 8:51 o'clock this morning and continued 16 seconds. Little or no damage was done. A lighter shock had occurred at 8:26.

GRIMM ASSERTS INDEPENDENCE IN MAYORALTY RACE

Circuit Judge Pledges Efficient, Economical Administration Free From Political Domination.

BASES PLATFORM ON RECORD ON BENCH

Declares He Will Assume Full Responsibility for the Conduct of City Affairs, if Elected.

Circuit Judge J. Hugo Grimm, who will retire from the bench shortly to make the race for the Republican mayoralty nomination, last night made public his platform, which pledges an efficient and economical administration, free from political or other domination. The platform is erected upon the base provided by his record of 18 years as a judge, of which he invites investigation.

Judge Grimm was the last of five candidates to file for the nomination. He will have the support of Collector Koeln, but, as in the past, will find a large part of the Republican City Committee opposed to him. However, he twice led the judicial ticket with Koeln's support in the face of committee opposition.

Asserts His Independence.

The platform discusses the principal issues of the campaign briefly. His independence, which politicians have encountered, is indicated in the statement that he "has not sought nor do I ask the support of any person, firm or corporation having or expecting contracts with the city for public work."

Later in the statement he says he will assume full responsibility for the conduct of the several departments of the city, if elected.

Judge Grimm regards the bond issue as "a mandate of the people" directing the completion of the projects authorized as speedily as possible and an economical expenditure of the funds involved.

Particular emphasis is placed upon the importance of the Board of Public Service, "where the administrative work of the city rests in a large measure." "I give my pledge that the president and four members will be men of the highest character and ability that can be secured," Judge Grimm states. "They will be given full charge of their departments, and, being given full power, will be held responsible. If any of them fail to faithfully and efficiently discharge their duties they will be removed without hesitation. These officials will be entirely free from the influence of politics and special interests. This will secure to the people a real business administration."

View of Transportation.

Discussing the city transportation system, Judge Grimm points out that the object to be attained is "some sort of co-operation between the electric lines, and the city, which will extend the service without calling for additional or increased fares. Incidentally, there is the question of taxing these two public utilities fairly and in proportion to the respect they receive from the city."

In this connection the Judge adds that plans for a subway should be worked out as soon as the "installation of that mode of transportation becomes possible."

"The municipal bridge question," Judge Grimm says, "must be speedily settled in a practical way and right. It is such a complicated problem that no sincere person would settle it if elected Mayor. I shall draw to my assistance the best disinterested legal, transportation and engineering skill available, and endeavor to work out a satisfactory solution of the problem."

Violations of city ordinances are frequently regarded as minor offenses, Judge Grimm points out, but should be dealt with sternly because criminal careers usually begin with minor offenses where the offender escapes punishment through improper influences. "He has the past," he says, "and his efforts to improve the criminal record of the State and will not lose interest in the matter although he is Mayor, as such, has no authority to enforce criminal laws of the State." The enforcement of ordinances relating to public health, cleanliness of nuisances and care of hospitals and institutions will receive his earnest attention, he says.

Other Subjects Discussed.

He declares for permitting property owners to have a voice in the selection of paving materials for their only as a basis for judging their employees; for the appointment of capable, courageous judges of the police courts; rigid enforcement of traffic ordinances; enforcement of proper transportation, statement of the smoke nuisance and abolition of grade crossings.

He does not mention the Bureau of Municipal Research by name, but in the last two years he has been giving our citizens information concerning their government and making suggestions to

NEW CIRCUIT JUDGE

HARRY A. ROSSKOPF.

13 MEN, SUSPECTED OF BLACK HAND ACTIVITIES, HELD

Taken in Raid on Cooper Street Barber Shop by Police of Mounted District.

Thirteen Italians suspected of "black hand" activities are being held for the Federal authorities today following a raid by police of the Mounted District on a barber shop at 2115 Cooper street at 10 o'clock last night.

The raid was an outgrowth of an explosion which on the night of Feb. 5 damaged the home of Joe Gianino, 5335 Bischoff avenue. Shortly after the explosion, Dominick Anello, 1923 Edwards street, a known "black hand" offender, and Tony Allato, 5224 Bischoff avenue, his constant companion, were arrested, Allato being released on bond.

Investigation disclosed that both had been frequenters of the barber shop and a watch was set upon the place to ascertain whether it might be a possible "black hand" rendezvous. When activities about the place seemed suspicious last night, the raid followed and Allato was among the 13 arrested.

Envoy to U. S. Leaves Berlin.

BERLIN, Feb. 25.—Baron Agos von Maltzan, German ambassador to the United States and Baroness von Maltzan, left Berlin today for Hamburg, en route to New York and Washington. They will sail from Hamburg on the steamer Albert Ballin, Feb. 27.

Public officials of methods by which public service might be improved.

He quotes a statement of Secretary of State Hughes, when Governor of New York, to the effect that while he had no patience with indiscriminate criticism of public officials, he desired more "than anything else to get at the facts. Judge Grimm adds that he will be glad to get at the facts in his administration and receive just criticism and constructive suggestions which will be adopted "wherever it appears that the public service shall be improved by so doing, regardless of consideration."

Mayor Kiel, in an interview in the Post-Dispatch Sunday last, had criticized the Bureau of Municipal Research for criticism of his administration which he said had not been constructive.

Miller Steadily Gaining, Says His Manager.

Robert J. Kratky, manager of the campaign of Victor J. Miller for Mayor, today issued a statement in which he reviewed Miller's 37,823 vote in the gubernatorial primary last August, and said Miller had addressed 50,000 persons at various meetings in the city since Dec. 15. Miller was the first entrant in the mayoralty race and announced his platform Jan. 7 last.

The statement pointed out that Miller carried 18 of 28 wards without organization support in August, and said that since that time an organization had been perfected which extends "into every precinct in the city." He said canvasses taken periodically indicated that Miller was steadily gaining strength and that, in his opinion, it reflected the "determination of the people to seize the opportunity his candidacy offers to put into effect their own ideas of good municipal government."

Four Candidates to Speak at Luncheon Meeting Tomorrow.

One Democratic and three Republican candidates for Mayor will speak at a luncheon given by the League of Women Voters at the American Annex Hotel at noon tomorrow. They are Louis P. Allen, Victor J. Miller and Circuit Judge R. W. Hall, Republicans, and William L. Igoe, Democrat. Mrs. Aaron S. Rath will preside.

Circuit Judge J. Hugo Grimm and George E. Dieckman, Republicans, will speak before the organization at a luncheon March 5.

First Voters' Club Formed to Support Circuit Judge.

The "First Voters' Club," composed of persons who will cast their first ballot in a mayoralty campaign this Spring, has been organized by Miss Helen Hanser, 3651 Delmar boulevard, and will support Circuit Judge J. Hugo Grimm in his race for the Republican mayoralty nomination. It has 57 members at the present time and is appealing to all first voters to join its ranks.

ROSSKOPF NAMED AS SUCCESSOR OF JUDGE GRIMM

Former Board of Education Head Is Appointed to the Circuit Bench by Gov. Baker.

Henry A. Rosskopf of 3721 Hartford street, former president of the Board of Education and still a member of the board, was appointed by Gov. Baker today as a Judge of the St. Louis Circuit Court, to succeed Judge J. Hugo Grimm tomorrow. Judge Grimm resigned to run for the Republican nomination for Mayor.

The term of the appointment will end after the election of November, 1926.

Rosskopf is 47 years old, and is a graduate of the Benton College of Law, in the class of 1901. He was Assistant Circuit Attorney from 1905 to 1913. He was elected to the Board of Education, and served two one-year terms as president of the board. His re-election in 1923 broke a precedent which had prevailed of alternating between a Republican and a Democrat. He was succeeded by John C. Tobin, a Democrat, as president of the board last fall.

In the Republican primary of 1922, Rosskopf was one of a large field of contenders for nomination for the circuit bench, but was unsuccessful. He represented the city Board of Estimate and Apportionment at the 1921 session of the Legislature, in matters affecting the city's finances.

In the war period he was chairman of the Thirteenth Ward Draft Board.

\$500 REWARD OFFERED FOR ARREST OF SHUMAKER'S SLAYER

Employer of Nursery Concern Apparently Killed While Seeking Stolen Auto.

LOUISIANA, Mo., Feb. 25.—The mystery of the disappearance of Carl Shumaker, 24 years old, an employee of the Stark Bros. Nursery Co., was solved when his body, with four bullet wounds, was found hidden in a cluster of brush on the farm of Guy Elston, about four miles north of Elsberry, last night. Shumaker left Louisiana Tuesday of last week, driving a truck, to look for a coupe which had been stolen from the home of Clay Stark the night before.

When Elston discovered Shumaker's body he recalled that on Tuesday afternoon of last week he had heard six shots in the road near his home. Just before the shooting he had seen two automobiles racing down the road, and after the shooting he found a third car on the roadside. Three cartridge shells were lying near the coupe. Three men in a truck passed him in the road. The coupe was the one stolen from the home of Stark.

The truck in which Shumaker had driven from Louisiana was found near Old Monroe, about 20 miles from Elsberry, a few days later. The men who stole the coupe apparently shot and killed Shumaker.

The Stark Bros. Nurseries has offered a reward of \$500 for the arrest and conviction of those responsible for Shumaker's death.

MOUNT RAINIER SNOW SHORT

Crew of Shovelers at Paradise Valley Getting Little Exercise.

ASHFORD, Wash.—With snow only reaching to the eavesposts of the inn, there is a complaint from Paradise Valley, Mount Rainier, about a shortage. Ordinarily the snow gets well up to the roof by midwinter and the crew kept there to clean off the white mantle to save the long rafters, have had little exercise.

Owing to the tremendous weight of the deep snows, Mount Rainier's glaciers will next summer move a little faster than in years of light snowfall. The difference will not be noticed by the tourists, however, for the increase in speed will amount to but six inches in four months.

Fire Causes \$4000 Damage.

Fire of undetermined origin, at 4 a. m. today, caused \$4000 damage to the plant of the Brooksmith Mfg. Co., 1860 Menard street.

Joseph Kieffner Dies in Hospital.

Joseph Kieffner, 24 years old, died Monday night at St. Joseph's Hospital, in Alton, after an illness which began in September, when he was visiting in California. He leaves a sister, Mrs. Robert Winger, and two brothers, Warren and Bridgeton, N. J., and William of Alton. The funeral will be held Sunday from St. Patrick's Church in Alton.

"132-YEAR TASK TO READ EVERYTHING ON SHAKSPEARE"

Lecturer Says 48,000 Articles and Books Have Been Written About the Bard.

Shakespeare is not just an author—he's an industry, said William W. Ellsworth, former president of the Century Company, in a lecture last night upon "Shakespeare and Old London," before the Washington University Association in the Medical School Auditorium, Euclid and Scott avenues.

"A few years ago," he said, "there were listed 36,000 different articles and books on Shakespeare. A new list being published adds 12,000 to this. Think of 48,000 different articles or books on one man. If you could read one a day it would take just 132 years. Much as I would advocate a knowledge of Shakespeare, I think that's a lot of time to devote to the author."

The lecturer sought to account for five of the years between Shakespeare's disappearance from Stratford at the age of 21 and his first recorded appearance upon the London scene, by depicting the view of Prof. Joseph Quincy Adams that Shakespeare had spent that term as a school-teacher. The rest of the time he believes him to have been serving his apprenticeship in the London theaters.

INNOVATIONS IN DESIGNS MAKE DIRIGIBLES FASTER AND SAFER

Briton Eliminates Gondolas to Reduce Resistance and Puts Navigation Room in Ship's Nose.

LONDON, Feb. 25.—Innovations in dirigible designs, making the airships faster and safer and more feasible for long distance flight, have been submitted to the Government, says the Press Association today. It quotes experts as saying it would be possible with the new ships to make the journey to New Zealand in nine days.

The new designs, it is explained, eliminate the gondolas with the exception of those carrying the motors, thus reducing resistance. They provide space for the pilot and navigating room in the ship's nose. The passenger salons are also within the ship's skeleton.

The new type of dirigible is credited to Commander C. D. Burney, member of Parliament, director of the Airship Guaranty Co., which the MacDonald Government placed on order for a ship of 5,000,000 cubic feet capacity, and to Chief Designer B. N. Wallis, who simultaneously worked out a new style mooring.

It is stated that at a conference in London a few weeks ago attended by Dr. Hugo Eckener, director of the Zeppelin Co., Capt. Ernest Lehmann, Zeppelin engineer; Wallis and other officials, the stream-line principle of the new ship, as well as the new mast idea, were approved and it was declared the latter should be provisionally adopted as the standard to which all commercial mooring masts in the United States, England and Germany should conform hereafter.

SALE OF ST. LOUIS, TROY & EASTERN AUTHORIZED

Illinois Commerce Commission Gives Permission to Purchase by Power Corporation.

SPRINGFIELD, Ill., Feb. 25.—Orders of the Illinois Commerce Commission, announced here today, indicate the National Defense Gasoline & Distributing Co. has been granted permission to operate motor buses between Greenville and Smithboro, and truck service between East St. Louis, St. Louis, Highland, Greenville and Smithboro.

Authorizing the Alton & Eastern Electric Railway Co. to discontinue 3100 feet of its road east from a junction with the Alton, Granite & St. Louis Traction Co. on College avenue in Alton.

Authorizing Illinois Power and Light Corporation to acquire all outstanding stock of the St. Louis, Troy & Eastern Railway Co. and the St. Louis & Illinois Belt Railway for \$2,030,000, of which \$1,700,000 to be paid in cash and \$240,000 to be a time obligation.

GEORGE KINGSLAND DIES

Was Department Manager for Mississippi Valley Trust Co.

George Kingsland, manager of the mortgage loan department of the Mississippi Valley Trust Co., died of heart disease at his home, 6024 West Cabanne avenue, today. Funeral services will be held at 2:30 p. m. Friday from the residence of Bellefontaine Cemetery.

Kingsland was born in St. Louis County in 1857. He graduated from St. Louis schools and engaged in manufacturing here until 1907, when he went of the trust company.

He is survived by his widow and three children.

TWO POLICEMEN ARE DISMISSED ON BRIBERY CHARGE

Man and Wife, Who Had Still in House, Testify Demand Was Made for \$40.

When two strange men brought a still to the home of Louis Valli, 5335 Patton avenue, they told Louis and his wife, Teresa, "In case anybody comes, pay them off, so they won't take it away."

Consequently the Vallis were prepared two days later, Feb. 14, when two men called, flashed badges and announced they would have to seize the still and make arrests.

How much?" asked the Vallis. "Forty dollars," was the reply.

Send Out an S O S.

The Vallis did not have \$40, perhaps because the still had been there such a short time, but they knew Constantino de Franco, of 2107 Edwards street, known as Mayor of The Hill, had many times \$40. Sure enough, De Franco heeded their S O S and arrived with the money.

The two visitors accepted the \$40 and seemed pleased. They shook hands all around and promised they would not come back any more.

So testified Louis and Teresa Valli in Italian before the Police Board yesterday. An interpreter translated into English their remarks. De Franco testified, too, but he needed no interpreter. All three pointed out Probationary Patrolman John H. Westphalen as the man who pocketed the \$40 and Probationary Patrolman Ambrose M. Burke as the one who accompanied Westphalen.

Dismissed From Force.

The policemen denied the charge. Burke, a former Federal prohibition enforcement agent, attributed the charge to enmity aroused by his enforcement activity on "The Hill." The Police Board found them guilty, and dismissed them from the force.

Warrants against the two were issued last week, but withdrawn by Circuit Attorney Sidener, who held there was no basis for prosecution, as it would be necessary to prove the still was being operated when the \$40 was paid, and such proof was lacking. The still was the "traveling" variety, and was moved from the Valli home before it could be confiscated.

WOMEN'S CONFERENCE URGES ADEQUATE NATIONAL DEFENSE

Report of Committee Asserts It Is America's Best Peace Insurance.

WASHINGTON, Feb. 25.—America's best peace insurance rests in adequate national defense, the Women's Conference on National Defense as Peace Insurance, voted unanimously today at the close of a three days' convention here.

"Our national security must be preserved, and we believe that the national defense rests America's best peace insurance, until such time, as by agreement, limitation of arms may be possible." The conference, composed of representatives of representatives of 16 national organizations, advocated a nationwide educational campaign on the national defense act and pledged itself to promote the cause of peace.

"But we are determined," the report added, "to protect and defend our own and be able at all times to maintain our national integrity. We, therefore, urge all our fellow citizens to support a consistent program and policy of adequate national defense."

The conference also approved a campaign now in progress to increase the reserve officer training camp system for 34,000 to 100,000 youths.

"GASOLINE JACK" TELLS OF PAWNING GEMS TO CARRY ON

Head of Oil Distributing Company Lays Bankruptcy of Concern to a Partner.

"Gasoline Jack" Rubenstein, professional gambler and former operator of three oil stations, has pawned his diamonds to carry on, he testified today before Referee Coles at a hearing of the bankruptcy action against the Consolidated Gasoline & Distributing Co., 212 South Twelfth boulevard, of which Rubenstein is head.

Rubenstein laid all the blame at a partner's door. It was a good company for five years, he said, until January, 1924, when the partner bought in, Charles Ziegler and Gilbert Lowenstein. Ziegler, as secretary, assigned accounts to a creditor, without his knowledge, confusing things so that they knew not where they stood, he testified.

That is the principal reason that the company now has liabilities of \$24,000 against assets of \$5000, he asserted.

Lowenstein testified he put \$2800 into the company, but paid little attention to the business and "never knew where he stood." Ziegler will be examined Monday.

Peoria's 8-Term Mayor Re-elected.

PEORIA, Feb. 25.—Edward N. Woodruff, eight times Mayor of Peoria, was defeated for the Republican nomination by Louis Mueller, a Board of Trade member, yesterday. Mueller's plurality was 441.

STOKES' SON-IN- CHICAGO TO TAKE PART IN TRIAL

Which Side He Will Aid Is Not Revealed; Once Was Sued for Slander by Mrs. Stokes.

By the Associated Press.

CHICAGO, Feb. 25.—W. E. D. (Waddie) Stokes Jr., 26-year-old son of the aged wealthy New York hotel owner, and stepson of the 38-year-old Helen Elwood Stokes, unexpectedly has arrived here apparently to take an unknown part in the trial of his father and three co-defendants on charges of conspiracy to defame Mrs. Stokes.

Young Stokes, who is the son of W. E. D. Stokes Sr., by his first wife, the present Mrs. Philip Lydig, was made defendant in August, 1923, in a suit for \$1,000,000 damages brought by his stepmother for alleged character defamation. The suit was never brought to trial. Mrs. Stokes filed the action after a letter purporting to be written by young Stokes to his father, confessing intimacies with her in 1919 was brought out at the first Stokes divorce hearing in October, 1914. The boy was 18 years old when in 1911, his father married Helen Elwood, then a young music student from Denver.

Tinker Takes Stand.

Mrs. Stokes today declined to confirm rumors that "Waddie" might testify in her behalf. She said she knew nothing about her stepson's intentions and had not seen him for a long time.

Charles Burnish, wife, aged itinerant tinker, formerly porter in a resort, was allowed to leave the witness stand today and walk about the courtroom to see if he could identify anyone who asked him to sign a paper. The defendants are accused of paying for fraudulently damaging affidavits about Mrs. Stokes. The witness had said he could not see clearly enough to identify anyone from the stand. Cane in hand, and peering about him, Burnish started upon a stroll among the spectators until admonished to limit his scrutiny to the persons at the tables near the bench. He identified no one, remembered no names, and there was no cross-examination.

Didn't Know What It Meant.

Burnish said he signed a paper in a taxi cab, that the persons who gave him the paper gave him money, but "not for signing the paper."

John Moore, negro, said he could not read, but "touched the pen" when an affidavit was read to him. "Sure they read it, but I didn't know what it meant," said Moore on cross-examination.

That agents of Stokes repeatedly piled Frank Hubert, negro waiter, with sin and moonshine whiskey while urging him to refresh his memory, was the burden of Hubert's testimony against Stokes today. Hubert is a defendant who obtained a separate trial.

Hubert identified as signed by him and then repudiated, an affidavit alleging that Mrs. Stokes associated in the early morning hours with a negro at the Beaux Arts Club, which he characterized as a "midnight cabaret"; that they conducted themselves in a demonstrative manner; that Mrs. Stokes called the negro, Wallace Tyler, on the long distance from New York; that she gave him silk shirts and at one time \$200, which he paid for drink, proclaiming its source.

Farmer, 85, Hangs Himself.

HARRISBURG, Ill., Feb. 25.—William Tuttle, 85 years old, a farmer, killed himself this morning at his home, 12 miles northwest of Harrisburg. His body was found hanging to a rafter in his barn.

MOTHER-IN-LAW BROKE ROMANCE, MRS. DAY CHARGES

Bride of Son of Wealthy Chicagoan in Critical Condition After Trying to Kill Herself.

Special to the Post-Dispatch.

LOS ANGELES, Cal., Feb. 25.—Mrs. Bernice Day, who swallowed poison after throwing acid in the face of her husband, Darby Day Jr., son of a wealthy Chicago insurance man, was in a critical condition today. Physicians said her recovery was doubtful.

Caroline Lundstrom, the wife's sister, for whom a warrant was issued charging her with "aiding and abetting" the acid attack, surrendered and was released in the custody of her mother.

Young Day, who may lose the sight of one eye and suffer fearful facial disfigurements from acid burns, is under the care of specialists, employed at the instance of his wealthy father, reported hurrying to his son's bedside.

In a note to her husband, written shortly before the alleged attack, Mrs. Day charged their romance had been shattered by "too much mother-in-law." Mothers-in-law should not live with young married people," the girl wrote.

Mrs. Day Jr., daughter of a contractor now in Miami, Fla., told her sister, Caroline, according to Miss Lundstrom's story to police, that her mother-in-law "had made things so unpleasant" for her she could not be happy.

Electric Railroad Line Saves Most of Cost of Installation in 8 Years

550-Mile Stretch of the Milwaukee in Northwest Is Operated for \$12,400,000 Less Than Steam Would Have Cost.

CHICAGO, Feb. 25.—The Chicago, Milwaukee & St. Paul Railway, which on its mountain divisions has the most extensive electrification of railway trunk line in the world, today made public a report showing the result it has obtained from electrification and particularly the savings that have been effected by comparison with the costs which would have been incurred under steam operation.

The St. Paul's electrical installation extends from Harlowton, Mont., across the Rocky Mountains to Seattle and Tacoma, Wash., with only a short gap where steam operation prevails. In all, 650 miles of line are electrically operated. Its electrical installation has attracted wide attention because of its magnitude and of the use of hydro-electric power as a substitute for steam power. The installation has been visited by interested individuals, committees and delegations from all parts of this country and from abroad.

The report shows that the total investment in the electrification has been less than has been widely believed. For 550 miles it has

amounted in round figures to \$22,000,000. The net investment, which is arrived at by deducting the investment in steam power which has been replaced and retired, amounts to \$16,000,000, or slightly less than \$25,000 per mile. The total net savings computed for electrical as from 1916 to 1924 inclusive amount to \$12,400,000, or slightly more than three-fourths of the net cost of the electrification. The net savings per year as reported range from a minimum of \$671,014 in 1921—a year of low traffic—to \$1,928,626 in 1920, a year of fairly heavy traffic. The maximum traffic handled over this line was in 1919, and it is estimated that if the present installation had all been in existence in that year the net saving would have amounted to \$2,355,199.

The net savings obtained by electrification have been computed by deducting the charges for interest and depreciation on the additional investment required from the savings effected in operating expenses. The figures were arrived at after an exhaustive analysis of the cost of steam operation before

electrification and of electrical operation on the same sections of line, the relative cost for different years being brought to the same basis by allowance for changes in the wages of labor and the prices of materials.

No savings have been credited to electrical operation which are not susceptible of direct ascertainment. For example, the possible increased revenue earned owing to the release of equipment used in the transportation of coal when these divisions were under steam operation; the better utilization of freight equipment due to faster movement; the reduction of wear and tear on road and equipment; the reduction of station and similar expenses effected by reduction of the number of trains required to handle a given tonnage; and the increase in passenger revenue due to the attractiveness and greater comfort of travel under electrified operation, have not been allowed for since it was not possible to do so accurately.

Electrical operation on the St. Paul lines was begun in 1916 when 40 miles of road from Harlowton, Mont., to Avery, Idaho, was changed from the steam to electrical power. This section traverses the Rocky and Bitter Root Mountain ranges. In 1920 there was opened to electrical operation 209 additional miles from Othello to Tacoma, Wash. This section traverses the Cascade Mountains. Huge electric locomotives of different types for freight and passenger service take the power from the trolley through pantograph collectors. Each of these locomotives weighs approximately 600,000 pounds or 300 tons and has a rating of approximately 4000 horsepower, or sufficient to haul a 2500-ton freight train up a 1 per

cent grade at 15 miles per hour, or the company's heavy passenger trains, the Olympian and Columbian, up the steepest mountain grades at 25 miles an hour.

The electrical current used is purchased from independent producing companies, whose plants are located at water power sites with abundant transmitting distances. The type of electrification used is that known as the direct current system in distinction from the alternating current system used by some other roads. Direct current at 3000 volts is distributed over all the tracks on an overhead trolley, return being made through the bonded rails of the track. The current is delivered at 100,000 volts, alternating current, through phase, to the railway company's high-tension line, which parallels the track throughout the electrification. This high-tension current is led into substation buildings at approximately 30-mile intervals where it is stepped down to a working voltage of 2300, alternating current, and thence converted through motor generators to 3000 volts, direct current, for distribution on the trolley.

The locomotives are designed to stand overloading and can develop a very high starting effort for one hour. They are consequently well adapted for work on divisions of varying gradients. On descending grades the motors are reversed to act as generators and, in popular parlance, they "pump juice" back into the trolley where it can be used by other locomotives ascending grades. This feature, in addition to the saving of power, has another use of importance in that with the motors working on descending grades the speed of the trains can be held under perfect

control and mechanical braking is unnecessary except for stopping. Incidentally, this effects a considerable saving in brake shoes.

The St. Paul selected its mountain divisions for its first electrification for various reasons. Steam power is very expensive on heavy grade lines. It is also comparatively inefficient in extreme cold weather such as is experienced in mountainous country. Steam power units lack the dual ability possessed by electric power to exert maximum power on long heavy grades and maximum speed on the intervening light grades. Local availability of hydro-electric power at low cost in the territory of the lines electrified was also a consideration of importance.

DANCER MARRIES

LEONORA HUGHES.

LEONORA WEDS AND MAURICE WEEPS

Dancing Partnership Broken Up When Miss Hughes Marries Wealthy Argentine.

By Leased Wire From the New York Bureau of the Post-Dispatch. NEW YORK, Feb. 25.—Maurice, professional dancer, wept yesterday while Leonora, his partner, was married. Then the two sat down and wept together.

Leonora Hughes was married to Carlos Ortiz Basualdo, said to be an Argentine millionaire, in the lady chapel of St. Patrick's Cathedral at noon. Until Saturday Maurice and Leonora had been appearing in the Club Trocadero. They had been partners three years.

It was reported yesterday that the marriage of Leonora ended her dancing career, and Maurice announced: "It will be some time before I dance again. I don't know whether I can get another partner."

Leonora's marriage is Maurice's third disappointment. Joan Sawyer left him a few years ago to marry, and Maurice wept. He married his next partner, Florence Walton, but divorce ended their relations.

The ceremony yesterday was performed by the Rev. Robert E. Woods. Mrs. Carley Harriman was matron of honor. The bride's sister, Mrs. Margaret Lybeck, and her brother, James Hughes, were in the party, which arrived at the church shortly before noon. Maurice arrived 15 minutes earlier.

As the ceremony progressed Maurice put a handkerchief to his eyes and his sobbing was not drowned by the deep notes of the organ. After the ceremony Leonora and Maurice greeted each other. He broke down. Then she broke down and they wept together. The bride and the bridegroom marched out with Maurice, but somehow Maurice managed to ride away with the bride in a limousine, while the bridegroom followed in a taxi-cab.

Miss Hughes at the marriage bureau gave her age as 25 and her birthplace, Chicago. Basualdo gave his age as 26.

The two met when the American dancer was appearing in Paris with Maurice in the Club Maurice. Miss Hughes returned to New York in October. The couple will visit California and then sail for Buenos Aires.

MANOR SCENE OF ODD WAGER
English Peer Bet Coal Mines on Cock Fight 100 Years Ago.

By the Associated Press. WIGAN, England, Feb. 6.—Adlington Hall, a famous beauty spot of industrial Lancashire, which recently was sold by the corporation to a local business man, was the scene of an amazing wager 100 years ago.

It is on record that a cock fight took place between two birds belonging to the Lord of the Manor and the Earl of Derby, the stakes being all the local coal mines under the estate that could be seen from the dining room window of the hall.

The Adlington family, which formerly owned the estate, was one of the most ancient in the country.

District Rent Bill Virtually Dead.
By the Associated Press. WASHINGTON, Feb. 25.—The bill introduced in Congress several weeks ago designed to control rents in the District of Columbia, and which was favored by President Coolidge, was practically killed today in the House when the Rules Committee declined to give it preferred status in the legislative jam now confronting that body.

Victim of Auto Accident Dies.

Both Legs Severed by Train.
ROLLA, Mo., Feb. 22.—Harvey Dombard, 28 years old, of Evans

City, Pa., fell between two rail-knee. Dombard said he was re- turning to his home from Kansas both legs were cut off above the

**REALTY MAN BEATEN
IN OFFICE BY ROBBERS**
Three Masked Men Get \$500
After an Attack on Herman
Dischinger.

Herman Dischinger, a member of the Hartwig-Dischinger Realty Co., 2022 North Grand boulevard, is nursing serious bruises and lacerations today as a result of being kicked and beaten by three armed and masked robbers who held up the office at 10 o'clock last night and escaped with \$500.

Dischinger, who is 33 years old and resides at 2932 Palm street, and George Fugel, 24, of 3415 Cook avenue, a collector for the concern, were preparing to close the office for the night when they noticed three men approaching the place with handkerchiefs over their faces. Suspecting a holdup, Dischinger sprang to the door in an effort to lock it, but the visitors reached it first and forced their way in.

Dischinger severely beaten. After compelling him to pull down the shades, two of the intruders, enraged at the attempt to lock them out, set upon Dischinger with their revolvers, beating him on the head and in the ribs and abdomen after he had fallen to the floor.

While one man kept Fugel covered, the others then forced Dischinger to get up and open the safe, from which they took \$500. They ran out and escaped, after sending out one of their number with orders to "get the car ready." Holdups at Dry Goods Store and Restaurant Reported.

The dry goods store of Jacob Sawyer, 1355 North Garrison avenue, was held up at 9:30 p. m. by three men who drove to the place in an automobile. Two of the robbers entered with automatics, leaving the third at the wheel. Sawyer and a customer were made to stand against the wall while the cash register was looted of \$43.20.

George H. Drischler, night manager of a restaurant at 2145 Easton avenue, was held up and robbed of \$23 at 1:10 a. m. today by two men who alighted from a taxicab in front of the place and walked in with weapons drawn. After the holdup they returned to the machine and were driven away.

Police Lieutenant Markert of the Laclede Avenue District and a patrolman were scouting the district in a police automobile about midnight last night when they noticed that a light which usually is to be seen in front of a safe in the office of the J. F. Quinlan & Bros. Seed Co., 500 South Third street, avenue, had been extinguished. Suspecting that something might be wrong, they stopped to investigate and noticed an odor of cigarette smoke issuing from the building. The back door was open, and the burning end of a cigar had been hammered from the safe, but the door still held a hammer and crowbar lay on the floor, which was littered with cigarette stubs, some of which were still burning.

Beware of substitutes. Ask your druggist for "2 1/2 ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

**JAPANESE CONSUL GREET'S
CHINESE BOY EMPEROR**
Takes Him to Japanese Hotel in
Tientsin—Future Play of Manchu
King Uncertain.

By the Associated Press.
TIENTSIN, Feb. 22.—The boy emperor, Hsuan Tunk, tenth and last Manchu monarch to reign in China, who has abandoned Peking, seat of his dynasty, for this ancient city, was met by the Japanese Consul on his arrival here. The Consul drove the youth in his car to Chang Piao's garden, where Dr. Sun Yat-sen recently stayed. The garden was closed and not in readiness to receive the erstwhile ruler of the Chinese Empire. He then went to the Japanese-owned Yamato Hotel.

Yesterday arrangements were made for the boy emperor to reside in Chang Piao's Garden, where he will remain for the present, his future plans being uncertain. It is believed the former monarch desires to visit America and Europe. The women members of Hsuan's family were brought down from Peking yesterday by the secretary of the Japanese legation there.

Scholarship Foundation Meeting.
The executive board of the St. Louis Parent-Teacher Scholarship Foundation will meet at the home of Mrs. E. H. Brewer, 4028 Hartwood street, at 2 p. m. tomorrow. The foundation was organized to assist children to remain in school, who, because of financial conditions, would ordinarily be forced to obtain employment.

Lenten Lecture Tonight.
The Rev. Albert Muntach, S. J., professor of sociology at St. Louis University, will deliver the first of a series of six Lenten lectures at the Church Our Lady of Perpetual Help, Twentieth street and Linton avenue, this evening, when he will discuss "The Church and Social Progress."

How to Make Pine Cough Syrup at Home

Has no equal for prompt results. Takes but a moment to prepare, and saves you about \$2.

Pine is used in nearly all prescriptions and remedies for coughs. The reason is that pine contains several elements that have a remarkable effect in soothing and healing the membranes of the throat and chest.

Pine cough syrups are combinations of pine and syrup. The "syrup" part is usually plain sugar-syrup.

To make the best pine cough remedy that money can buy, put 2 1/2 ounces of Pinex in a pint bottle, and fill up with home-made sugar syrup.

Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you make a full pint—more than you can buy ready-made for three times the money. It is pure, good and tastes very pleasant.

You can feel this take hold of a cough or cold in a way that means business. The cough may be dry, hoarse and tight, or may be persistent loose from the formation of phlegm. The cause is the same—inflamed membranes—and this Pinex and Syrup combination will stop it—usually in 24 hours or less. Splendid, too, for bronchial asthma, hoarseness, or any ordinary throat ailment.

Pinex is a highly concentrated compound of genuine Norway pine extract, and is famous the world over for its prompt effect upon coughs.

Beware of substitutes. Ask your druggist for "2 1/2 ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth," bad breath, a dull, tired feeling—signs of indigestion and constipation, you'll find quick, sure and pleasant relief from the use of Dr. Edwards' Olive Tablets at bedtime.

Thousands take them every night just to keep regular. Try them. The end of it.

Tells Why He Can
Now Eat Hearty

"A letter which I read in the paper about Carter's Little Liver Pills filled my own case so closely that I could not help trying them and am very happy I did." So writes Mr. Frank J. Trumbull of Jersey City, N. J., whose letter goes on to say: "I had heard about Carter's Little Liver Pills for years but never knew they helped overcome poor appetite and sour stomach, until I read about another man in the same plight who took Carter's with good results. I tried them and can honestly say that they freed me of nasty gas on stomach, so that I can now eat without getting bloated, and they improved my appetite fully 100%. You can rest assured that from now on I will boost Carter's Little Liver Pills wherever I can. Recommended and for sale by all drug stores."

MOSCOW MAY DEPORT MARIA SPIRIDONOVA

Women Revolutionists, on
Hunger Strike in Prison,
Likely to Be Sent to
Turkistan.

Correspondence of the Associated Press.
RIGA, Feb. 4.—Maria Spiridonova, probably the most famous of all Russian woman revolutionists, is on a hunger strike in a Moscow prison and it is reported that the bolshevik officials are about to deport her to Turkistan.

Emma Goldman and other radicals have been exerting every effort to have Spiridonova released from Russia, that she might recruit her broken health in Germany. But Moscow officials are apparently afraid to let her leave Russian soil. She is the idol of the peasants, and is believed by them to have a charmed life.

As a young girl Spiridonova bombed a Russian provincial governor who was notorious for his brutal treatment of the peasantry. She suffered every indignity at the hands of Czarist officers and was sentenced to death. But this young school teacher who had made such a battle against the inhuman treatment of the peasantry was too well known to be executed, and was banished instead to Siberia.

The 1917 revolution brought her back to Petrograd, and although she was not a bolshevik, she induced the social revolutionists of the left to co-operate with the Lenin forces, and became a powerful factor in the congress of soldiers, sailors and workers which brought the bolshevik government into existence and hastened the end of the Kerensky regime.

But Spiridonova was opposed to the Brest-Litovsk Treaty. She battled against the shipments of grain and cloth from starving Russia to Germany, and opposed Lenin's efforts to arraign the penniless peasants against the thrifty peasants who had managed to buy a few sheep and cows. In the All-Russian soviet congress in July, 1918, Spiridonova openly assailed Lenin's policy and defined the German Ambassador, Mierbach, who was subsequently murdered.

Since that speech Spiridonova has never been a free woman. For a time she was in a sanatorium and the bolshevik authorities declared she was mentally irresponsible. Later she has been in various prisons and under guard in villages near Moscow. But at all times she has realized her steps were dogged by the secret police and she has more than once appealed to the officials to throw her back in jail. She said she preferred actual confinement to life under constant espionage.

Emma Goldman and other liberals who have seen Spiridonova frequently in Russia, scout all suggestions that her mind is affected.

\$10,000 REWARD FOR RETURN OF STOLEN ART TREASURES

Explanation of Presence of Paintings in U. S. Valued at \$485,000
Is Demanded of Owner.

By the Associated Press.
LOS ANGELES, Cal., Feb. 23.—A reward of \$10,000 for information leading to the return of \$485,000 in paintings and art treasures stolen from the Hollywood home of Martin Weinschenk last week, or leading to the arrest of the thieves, was offered today by Los Angeles representatives of a London firm said to have insured the collection for more than \$200,000.

Custom officials announced they had demanded an explanation from E. J. Weinschenk of the presence in this country of the paintings and art treasures which he declared were stolen. In view of their allegations that upon Weinschenk's entry into the United States from Danzig on the Baltimore, he declared nearly household effects valued at \$1000.

HOUSE PASSES POLICE SALARY.

BILL BY VOTE OF 110 TO 20
Expected Measure Will Be Amended
for Patrolmen \$25 a Month.

By the Associated Press.
JEFFERSON CITY, Mo., Feb. 23.—The St. Louis police salary increase bill, which proposes a general increase in all police salaries, from \$18 to \$25 a month, was passed today by the House of Representatives.

It provides for increased expenditures for the Police Department of approximately \$500,000 a year, the principal item being an increase of \$15 a month in salaries of patrolmen.

It is expected the bill will be amended in the Senate to make the increase for patrolmen \$25 instead of \$35, and that amount will not be opposed by the financial officers of the city.

Every representative from St. Louis in the House voted for the bill, though Representative Boedie, explaining his vote, said he voted for it because he believed the large increased cost of police service provided in the bill would mean its defeat in the Senate. The vote was 110 to 20. There were 20 absentees.

Houghton Nomination Confirmed.

By the Associated Press.
WASHINGTON, Feb. 23.—The nomination of Alanson B. Houghton to be Ambassador to Great Britain was confirmed yesterday by the Senate in a brief executive session.

For Every Radio "Fan"—Our Third

RADIO SHOW AND SALE

Interesting Demonstrations and Remarkable Values

Our Radio Show and Sale is a truly remarkable exposition—offering all that is newest and most worth-while in the field of Radio. The seventy-five booths—in charge of factory experts—offer a tremendous display of receivers, tubes, batteries, and other equipment! And the values are the most important of the season! Take advantage of them Thursday!

Tube Rejuvenation

Eighty per cent of "dead" radio tubes could be made efficient again by means of Tube Rejuvenation! In order to introduce this interesting science, our Enlarged Radio Laboratory will "revive" one tube, without charge, for each patron during the show. You are cordially invited to visit our Laboratory.

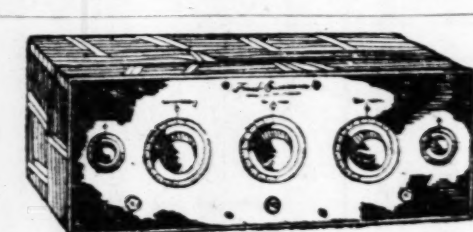

"A C" Chargers

MOTORIST WHO FLED SOUGHT FOR HOMICIDE

Unidentified Driver Failed to
Stop After Auto Fatally
Injured Negro

A Coroner's verdict of homicide at the hands of unknown parties was returned today in the case of Bert Todd, 46, a negro, who died at City Hospital No. 2 last night of injuries suffered at 9:45 p. m. Sunday, when struck by an auto-mobile at Twenty-third and Morgan streets.

Charles Sykes, a negro, who oc-cupied a room at 2213 Olive street with Todd, testified the driver of the machine, a Ford touring car, failed to stop after striking Todd. Sykes said he and Todd were cross-ing Morgan street, when the ma-chine, which he said was being driven west at 25 miles an hour, struck odd. The car was without lights, Sykes said. Todd suffered a fractured arm, fractured ribs and internal injuries.

Motorcyclist Injured When Ma-chine Runs Into Porch of House. Jacob Napper, 21, of 2202 Col-lege avenue, suffered lacerations of the head at 2 p. m. yesterday when he lost control of his motor-cycle and ran into the front porch of a residence at 4154 Gravois ave-nue. He said the front wheel of his motorcycle struck a loose brick in the street, causing it to cross the sidewalk and collide with the porch.

Louis Eickel, 22, of 2114 Sheri-dan avenue, suffered lacerations of the head, and Sam Wilkins, 18, a negro, may lose the sight of his right eye, as the result of a col-lision between two machines at Compton and Lucas avenues at 4 p. m. Investigation disclosed that Wilkins was driving the car of his employer, Dr. Alfred Meyer, with-out the latter's permission.

MEXICAN ENVOY PRESENTS CREDENTIALS TO COOLIDGE

Ambassador Tellez Says Struggle of
His Country Has Borne "Bene-ficial and Wholesome Results."

WASHINGTON, Feb. 25.—Pre-senting his credentials to President Coolidge, Manuel Tellez, the first accredited Ambassador from Mex-ico to the United States since the resumption of relations between the two countries, declared yester-day that the struggle through which the Mexican people had passed in the last decade had "borne beneficial and wholesome results."

"The consciousness that Mexico has of her international obliga-tions," said the Ambassador, "is shown by her endeavors, even dur-ing the most trying times of her difficulties, to protect or indemnify interests foreign to her domestic strife, threatened or injured there-by."

Replying, President Coolidge said the constant endeavor of Mexico to achieve the declared purposes of the Government was "being fol-lowed with the most sympathetic interest by the Government and people of the United States."

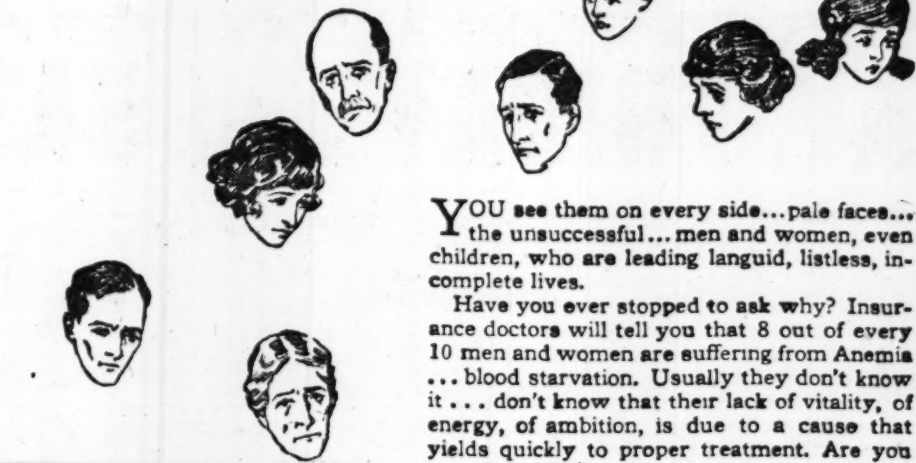

2,400,000 BONUS APPLICATIONS
Only 27,000 Disallowed, But 500,000
Were Returned for Correction.
By the Associated Press.
WASHINGTON, Feb. 25.—Major-General Robert C. Davis, in charge of the War Department's adminis-tration of the adjusted compensa-tion act, announced today that 2,400,000 bonus applications had been received from veterans throughout the United States and those now residing in foreign coun-tries. Of the total number received, he said, only 27,000 applications had been disallowed by the depart-ment, but it has been necessary to return 500,000 to the senders for corrections and necessary infor-mation.

General Davis called attention to the payment of cash bonuses effec-tive March 1 under the law. "On that date," he said, "cash pay-ments become due to those vet-erans whose adjusted service credit amounts to \$50 or less, and de-pendents of deceased veterans, in-cluding their widows, children, mothers and fathers, become en-titled to the first installment in cash of the amounts due them."

Women Candidates Defeated.
By the Associated Press.
CHICAGO, Feb. 25.—Women not officially set in Chicago's City Council for another two years at least. Three women candidates in yesterday's aldermanic election re-ceived only 489 votes of the 499,257 cast. Dr. Rowena Morse Mann, granddaughter of the inventor of the telegraph trailed last among five candidates, with 279 votes. Mrs. Irene Lefkowitz, lawyer, for-merly president of the Women's Chamber of Commerce, ran eighth in her ward with 85 votes, and only 116 votes were received by Mrs. Frank Townley Brown, society woman and organizer of the Wid-ows' Protective League.

Ten Sets of Twins in Illinois.
Special to the Post-Dispatch.
URBANA, Ill., Feb. 25.—Ten sets of twins are enrolled in the University of Illinois. They are: Rae and Ruth Blackburn, Cham-paign; Helen and Ruth Murphy, Champaign; Winifred and Bessie Ernest, Urbana; Alice and Agnes Agnew, Urbana; Irie and Inez Mackin, Bryant, Ind.; Leah and Charlotte Affron, Topeka, Kan.; Martha and Mary Montgomery, Alton, Ill.; Bernard and Max Fried-man, East Chicago, Ind.; W. A. and R. B. Bruce, Oak Park, and L. P. and L. J. Murphy, Chicago.

Are you one of the pale-faced failures?

YOU see them on every side... pale faces... the unsuccessful... men and women, even children, who are leading languid, listless, in-complete lives.

Have you ever stopped to ask why? In-surance doctors will tell you that 8 out of every 10 men and women are suffering from Anemia... blood starvation. Usually they don't know it... don't know that their lack of vitality, of energy, of ambition, is due to a cause that yields quickly to proper treatment. Are you one of the 80%?

Stop now as you read and make these simple tests... they may show you the way to a new life... with a new zest... a rich vital life, made again possible by rich, red, strength-building blood.

Physicians have seen thousands of patients renew health and strength by the use of Gude's Pepto-Mangan. It is the sure way, the safe way, to regain energy. Its iron and manganese content is easily assimilated by the blood and rebuilds the latent power of a run-down body. Your druggist has Gude's Pepto-Mangan in liquid or tablet form. Start a good Gude habit now.

MAKE THESE TESTS:

Press the thumb-nail. Watch the time it takes for blood to re-turn. Anemia is in-dicated unless blood returns at once.

Press flesh be-tween hand and thumb. If the blood does not re-turn at once it indicates anemia.

Unless the inside of eyelids is bright scarlet anemia may exist.

BAKERY MERGER OF 25 PLANTS PROPOSED

Consumers' Bread Co., Jordan
Pagel Firm and New Eng-
land Concern Involved.

KANSAS CITY, Mo., Feb. 22.—A new merger of bakeries including 25 plants, to be known as the Empire Baking Co., is under formation. It has been learned here.

The information was made public through representatives of Bryce B. Smith, president of the Consumers' Bread Co., who now is in New York perfecting financial arrangements for the proposed consolidation. Smith will be head of the new corporation, it was said.

The Empire company, at first, will operate with 25 plants, including eight now owned by the Consumers' Bread Co., four of which are located here, and one each in Tulsa, Enid, Oklahoma City and Wichita. Other units included will be the Gordon Pagel Baking Co. of Detroit, with four plants; the New England Baking Co., with nine plants; and a group of Canadian bakeries, an announcement yesterday said.

Authorized capital stock of the company will consist of 500,000 shares of a per cent participating class A stock and 500,000 shares of class B common stock, according to the announcement, which added that approximately \$5,000,000 of class A common stock would be issued soon. Officials of the Consumers' company denied reports that the Continental Baking Co. and the Ward Baking Co. interests are connected with the new Empire corporation.

URNS TRIBUTE TO JUSSEURAND

Washington Birthday Dinner in Paris Becomes Bouquet Banquet.

PARIS, Feb. 22.—The Washington birthday dinner of the American Club of Paris last night was transformed into an enthusiastic tribute to Jules J. Jusserand, the former French Ambassador to the United States, by Myron T. Herrick, the American Ambassador in Paris, and Consul-General Skinner.

Skiner, as chairman, started the ball rolling with a reference to Herrick and Jusserand as "the best-beloved Ambassadors ever sent out by their respective countries." This brought the 250 diners to their feet. He then paid tribute to Jusserand as having seen seven different administrations at Washington, and remarked that, "although a foreign Ambassador, he was a member of an American President's cabinet."

Jusserand brought his audience to their feet cheering when he paid homage to "this noble character, President Coolidge, that man of few, but ever appropriate, words."

\$10,000,000 in Gold for Argentina.

NEW YORK, Feb. 22.—Initial deposits of \$10,000,000 in gold to the credit of the Argentine Treasury under emergency plans by which the Government will issue currency to relieve a serious money stringency, were made yesterday by the National City Bank and the First National Bank of Boston. The metal, for which the Federal Reserve Bank will act as custodian, has been "ear-marked" temporarily, it was announced, and will be held subject to the order of the Argentine Ambassador. Additional deposits of \$20,000,000 or more by American and foreign banks are contemplated to make the measure effective.

Information Bureau for Voters.

The women's division of the Citizens' "Aide for Mayor" Committee will conduct a bureau of information all day tomorrow at committee headquarters, 221 Planters Building, where information relative to registration tomorrow can be obtained. The telephone number of the bureau is Olive 7674.

Noted Embassy Porter Dies.

ROME, Feb. 22.—Francisco Lelli, for 26 years a porter at the American Embassy, died yesterday. He is remembered by all American visitors to the Embassy for the infinite dignity with which he clothed his humble office, and which gained him his official designation of Knight of the Italian Crown. He was called the "Dean of the Diplomatic Service."

HOW DOCTORS TREAT
COLDS AND THE FLU

To break up a cold over night or to cut short an attack of grippe, influenza or sore throat, physicians and druggists are now recommending Calotabs, the nauseous Calomel tablet, that is purified from danger and sickening effects. Those who have tried it say that it acts like magic, by far more effective than the old style Calomel, and therefore recommended by physicians.

One or two Calotabs at bed time with a swallow of water—that's all. No salts, no nausea or the slightest interference with eating, work or pleasure. Next morning your cold has vanished and your system feels refreshed and purified. Calotabs are sold only in original sealed packages, price ten cents for the vegetable size; thirty-five cents for the large family package. Recommended and guaranteed by druggists. Your money back if you are not delighted.

New Furniture Magazine

Is Now Off the Press

The Outdoor Number of "With-
in the Home," a beautiful and in-
structive magazine, issued quar-
terly by the Prufrock-Litton Furni-
ture Co., Fourth and St. Charles
Sts., is now ready for distribution.

This Magazine, twenty-four
pages—cover in colors—is yours
for the asking. Register for one at
their store. Saturday ends their
Semi-Annual Furniture Sale—To-
day's special is a nine-piece din-
ing suite for only \$185—one day
only. Inspect it.

Don't wait until Saturday to
select your furniture, as we fear
we will not have enough salesmen
to take care of the crowds on
Saturday.

3 PRISONERS ESCAPE FROM
WILLIAMSON COUNTY JAIL

Tear Loose Bricks Near Window
While Acting Sheriff Attends
Nearby Movie Show.

MARION, Ill., Feb. 25.—Three
prisoners escaped from the Wil-
lamson County Jail here last night
while Acting Sheriff Randall Parks
was in a nearby theater. Pete
Vasknis, 45, of Johnston City;
Matt Woodshick, 35, also of John-
ston City; and Ralph Summers
were the men who escaped. Two
cellmates of the men who escaped
gave the alarm. Thirty-one pris-
oners did not try to escape.

Vasknis was awaiting transpor-
tation to a penitentiary, following
his conviction of the murder of his
wife by stamping her to death.
Woodshick, who was arrested in
Centralia on a charge made by S.
Glenn Young, late klan liquor
raider, signed a confession that he
shot and killed his sister. Summers
was held on a larceny charge.

The men had been turned loose
in a steel and brick inclosed run-
way for exercise, and managed to
tear loose enough bricks near a
window to make an avenue of es-
cape.

"REVIVAL MEETINGS OBSOLETE"
Minister Says Day of Campmeeting
Has Passed.

By the Associated Press.
ST. PAUL, Minn., Feb. 25.—Re-
vival meetings are obsolete, and
new methods are needed to draw
converts to the church, the Rev.
J. E. Wagner of Omaha, told the
Methodist Regional Council of
Cities here today.

The campmeeting was an inven-
tion to meet the needs of that day,"
the Rev. Mr. Wagner said, but it
has "served its day and now has a
place in history. That was the day
of the torchlight parade in politics,
the day of mass meetings for every
cause. And that day has passed.
As our fathers invented expedient
methods, machinery for their day,
their sons must invent such as will
serve their day."

CHICAGO DEMOCRATS GAIN
Elect 27 of 36 Councilmen; \$13-
500,000 Bond Issues Carry.

By the Associated Press.
CHICAGO, Feb. 25.—The Demo-
cratic city administration here has
been given renewed life as a result
of the aldermanic contests, which
returned 27 Democrats of 36 Coun-
cilmembers elected yesterday. In-
cluded among candidates for 14 seats to
be filled at a runoff election, April
7, are 13 more Democrats, 10 of
them present Council members.

Seven bond issues totaling \$13-
500,000, were carried decisively.
The main issue in the election
was Mayor Dever's plan for the
city to take over the street railway
and elevated lines by purchase. In
several wards where this issue was
paramount no candidate succeeded
in obtaining a clear majority, and
the two highest candidates will
fight it out at the polls on April 7.

TOKIO RECOGNIZES SOVIETS
Privy Council Ratifies Agreement
of Ambassador at Peking.

By the Associated Press.
TOKIO, Feb. 25.—The Privy
Council yesterday ratified the
agreement recently arrived at be-
tween the Japanese and Soviet Am-
bassadors at Peking, establishing
diplomatic relations between the
two Governments. The exchange
of ratifications will take place at
Peking today.

Two Injured in Plane Crash.

By the Associated Press.
MEXIA, Tex., Feb. 25.—E. B.
Nevill, Trimble, Tenn., and C. C.
Stradden of Mexia, were injured
in an airplane crash here yester-
day. Nevill was a passenger in
Stradden's machine and they had
started to go to Olney, where
Nevill was to prove that a body
held there as his had been incor-
rectly identified. The body bore
an identification card of T. B.
Nevill. A suit case in the plane was
believed to have caught in the con-
trol levers, causing the wreck.
Stradden and Nevill are oil field
workers.

Three Chiropractors Sentenced.

By the Associated Press.
MATTOON, Ill., Feb. 25.—Three
chiropractors of Mattoon were
found guilty of violating the medi-
cine practice act in the County
Court at Charleston, Ill., yester-
day and given prison sentences and
fines of \$50 each. Nettie Hubert
was sentenced to one year in jail
and V. C. Wright and L. Glenn
Barker to a year of hard labor on
the penal farm near Vandalia.

Illinois G. O. P. Committeeman.

By the Associated Press.
CHICAGO, Feb. 25.—The Repub-
lican State Central Committee will
meet here Friday to select a suc-
cessor to the late Frederic W. Up-
ham as national committeeman for
Illinois. Congressman Allen F.
Moore of Monticello, Garrett De-
Norrest Kinney of Peoria, and C. J.
Doyle of Springfield, former Sec-
retary of State, are among those
discussed for the position.

Freak Conscription Law Repealed.

TOPEKA, Kan., Feb. 25.—The
lower House of the Kansas Leg-
islature yesterday repealed a law
making compulsory service of all
male citizens between the ages of
12 and 65 to fight grasshoppers.
The law was passed in 1877 and
has remained on the statute books
since.

Assistant Secretary of Interior.

By the Associated Press.
WASHINGTON, Feb. 25.—John
H. Edwards of Mitchell, Ind., has
been promoted by President Cool-
idge from the post of Interior de-
partment Solicitor to that of As-
sistant Secretary under Hubert
Work. He will succeed Francis M.
Goodwin of Spokane, when the lat-
ter leaves office March 4, to be-
come a member of a special reclama-
tion board.

WE know that Florida
and Southern Cali-
fornia are getting their full
quotas of St. Louisans as
Winter visitors. The white
flannel trousers, home-
spun lounging suits and
knicker outfits of Scotch
tweeds that we are custom
tailoring gives us this
news.

Print This Good News About
Joint-Ease Writes Eastern Druggist

"Joint-Ease is selling like 'hot
cakes in my store because it is a
wonderful and speedy remedy for all
joint troubles."
"But why not impress on tens of
thousands of suffering people some
of the things that dozens of my
customers tell me almost daily."
"Some say that it knocks out lum-
bago over night—others assert that
for chest colds and sore throat it has
no equal, while many insist that
there is nothing they ever tried that
is so efficient for neuralgia, neu-
ritis and even head colds and nasal
catarrh."

Answering the above letter, we,
the makers of Joint-Ease, know that
what this thriving New Jersey drug-
gist says is true, but we still main-
tain that Joint-Ease is prepared for
stiff, inflamed, painful, swollen
joints, whether in ankle, knee, hip,
elbow, shoulder, fingers or spine.
You'll like to use penetrating Joint-
Ease, for with just one minute's rubbing,
it soaks in through the flesh direct to the
suffering bones and ligaments—that's why
it succeeds—for when Joint-Ease gets in
joint misery gets out—and without any
waste of time all swelling and congestion
disappears. Ask Wolff-Wilson Drug Co.,
7th and Washington, Judge & Dolph Drug
Stores, or any druggist anywhere.

Don't stay stuffed-up! Take
"Pape's Cold Compound" every
two hours until three doses are taken.
The first dose opens clogged-up
nasal and air passages of the
head; stops nose running; relieves
sinusitis, influenza, feverishness,
coughing. The second and third
doses usually break up the cold com-
pletely and end all gripe misery.
"Pape's Cold Compound" is the
quickest, surest relief known and
costs only thirty-five cents at drug
stores. Taster size. Contains no
quinine. Insist upon Pape's.

THE traditions of this event call for merchandising meas-
ures of the highest order, and that we are keenly aware of the man-
ner in which our customers regard this occasion, will be demon-
strated by the unsurpassed collection of lovely millinery modes that we
have assembled. Important, too, is the fact that every Hat represents an ad-
vance mode—many of which will receive their initial showing Thursday.

The Sale Will Start Thursday at 9—The Styles Are One of a Kind and Early Attendance Is Urged

'TIGER OF FRANCE' REFUSES MEMBERSHIP IN ACADEMY

Green Embroidered Ceremonial Toga and Sword Too Much for Clemenceau

Special Correspondence of the Post-Dispatch and Chicago Daily News.

PARIS, Feb. 22.—Georges Clemenceau, "the tiger" of France, was elected a member of the French academy a few years ago, in recognition of the eminent services he had rendered his country, but could not be induced to go to the academy formally to accept the honor conferred upon him. Raymond Poincaré, asked to make the speech introducing the new member, has had it prepared in his desk for four years. Yet Clemenceau is obdurate. He will not accept the honor.

A special delegation called on the old statesman a few days ago in his small apartment in Paris to try to soften him and make him change his mind. M. Clemenceau received his callers politely, but after listening patiently to their pressing arguments, replied: "Do you realize how I should look in those green embroidered toga, with a sword hanging at my side? Just like a wet parrot."

When the delegation assured him that this was not true, the old ex-Premier asked whether it was a fact that the protocol demanded that a newly elected member should attend an official dinner party given in his honor. When this was confirmed he exclaimed: "Well, then, there is nothing doing. I hate to dine out." And that was final. The delegation withdrew, giving up all hope of ever having the "tiger" sit within the walls of the famous "Institute de France."

BULK OF MORRISON ESTATE IN TRUST FOR DAUGHTERS

One-Time Social Arbitrator Made Numerous Special Requests to Relatives and Friends.

The will of Mrs. J. L. D. Morrison, one-time social arbiter of St. Louis, who died at the Buckingham Hotel last Wednesday at the age of 82, was filed in Probate Court yesterday.

After numerous special bequests to relatives and friends, the bulk of the estate is placed in trust with the St. Louis Union Trust Co. and Frederick G. Zeibig, to be held during the lives of her two daughters, Mrs. Mary Kelley and Mrs. Virginia A. Carr, who are to share equally in the income.

Special bequests include gifts of \$5000 to each of seven grandchildren, \$3000 to each of three great-grandchildren, \$2000 to Mrs. Zelma Thompson, \$1000 to Mrs. Lucy Greenhaw, \$500 to the St. Vincent de Paul Society and \$500 is set aside for masses.

The will states further that a note for \$100,000 signed by Mrs. Kelley has been canceled. Several codicils are attached to the document, revoking bequests to persons who have died since the will was drawn, on March 22, 1921.

TWO PULLMAN HEIRS GET \$90,000 EACH BY SETTLEMENT

Property, Including Chicago Holdings Worth \$190,000, Also Given Sisters, Widows of Magnet's Sons.

Special to the Post-Dispatch.

CHICAGO, Feb. 22.—Two daughters-in-law of Mrs. George M. Pullman, widow of the sleeping car magnate, have come into money by settlement in court. They are Louisa and Sarah Pullman, sisters, who married George M. Pullman Jr. and his brother, Sanger Pullman, the only male representatives of the Pullman family.

George M. Pullman's daughters are Mrs. Frank O. Lowden, wife of the former Governor of Illinois, and Mrs. Francis J. Coran of California.

The brothers have been dead 14 years, but the young widows have fought all these years for some share of the Pullman millions.

Settlement of the suit brought by the two daughters-in-law for a share of the estate was made before Circuit Judge Francis S. Wilson yesterday. From financial agencies it is learned the widows get \$30,000 in cash, Chicago real estate worth \$190,000, and property in New Jersey and California.

Both sons died before they were 30. Sanger fell off a horse and his neck was broken.

NO MORE CASTOR OIL FOR THE CHILDREN

Give Them Haley's Magnesia-Oil

Mothers, there's an easy way now to correct that sour stomach, and to relieve the effect of something that has "disagreed" with the youngsters. Simply give them a teaspoonful or more of Haley's Magnesia-Oil.

It has no oily taste—can be mixed with milk and given children without their knowledge—and it's harmless. A big dose for emergencies is perfectly safe and promptly effective. There is no griping or other unpleasant effect. Haley's Magnesia-Oil is simply milk of magnesia and mineral oil combined.

The oil carries the magnesia straight to the lower bowel, where most stomach trouble originates. The milk of magnesia neutralizes the acids and the mineral oil lubricates and aids nature quickly to remove the cause of the trouble. Both work together.

If your druggist doesn't supply Haley's Magnesia-Oil we will mail a bottle postpaid, receipt of price. Large family size, \$1. The Haley M-O Company, Indianapolis, Ind.

Haley's M-O
Just Milk of Magnesia and Pure Mineral Oil

You just KNOW they're well
You, too, can have this vigorous, robust, healthy perfection

CONSTIPATION means PREMATURE OLD AGE

Inflammation, abscess, gangrene, appendicitis, auto-intoxication, numberless deadly diseases and shortened life, all come from constipation. Fastening is injurious. Food is an aid to bowel action. Cathartic pills, "salts," mineral waters, and a long list of "drugs" are decidedly bad and an aggravation. Allowing the bowels to become clogged is worse.

Dr. Caldwell's SYRUP PEPSIN
The Family Laxative

—promptly relieves constipation. It is different from pills or purgatives. It does not gripe, pain or purge. It acts easily and in a natural way, just as Dr. Caldwell intended when he prescribed it

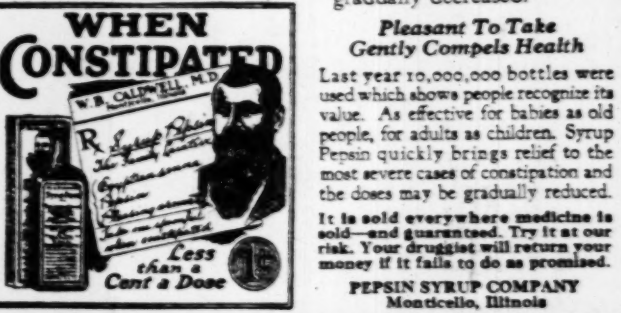

years ago. For 30 years it has relieved America's suffering. A liquid combination of Egyptian senna, pepsin and pleasing aromatics. One dose relieves and as Nature asserts its action the doses may be gradually decreased.

Pleasant To Take Gently Compels Health

Last year 10,000,000 bottles were used which shows people recognize its value. As effective for babies as old people, for adults as children, Syrup Pepsin quickly brings relief to the most severe cases of constipation and the doses may be gradually reduced. It is sold everywhere medicine is sold—and guaranteed. Try it at our risk. Your druggist will return your money if it fails to do as promised.

PART TWO.

SENATOR REED TO AIM ORATORICAL FIRE AT WARREN

Missourian Also Ready to Denounce Cramton Dry Bill, and Has Hit Banking Measure.

WANTS OPEN DEBATE ON CABINET PLACE

Senator Holds Cramton Bill Would Make Justice Department Subservient to Dry Commissioner.

By CHARLES G. ROSS, Chief Washington Correspondent of the Post-Dispatch.

WASHINGTON, Feb. 25.—Senator Reed of Missouri is rounding out the present session of Congress with lustrous oratorical whacks at men and measures that have come within the range of his always comprehensive and often laudable hostility.

Always a man to be feared in debate, Reed is making his belated, especially effective in these closing days, when there is hardly any limit to the damage that can be wrought by one determined Senator to the pet schemes of his colleagues.

Three bouts for which Reed has signed are those over the Cramton bill, the branch banking bill and the nomination of Charles Beecher Warren to be Attorney-General. The Cramton bill is an Antislavery League measure that has passed the House and been favorably reported by the Senate Judiciary Committee. It has not recently shown its head in the debates on the Senate floor, but whenever it does Reed is prepared to crack it, and, if necessary, to carry his fight to the extent of a genuine filibuster.

The Cramton bill aims to take the prohibition unit from under the wing of the Internal Revenue Commissioner and make it a separate bureau of the Treasury Department. It passed, it would enhance the power of the Antislavery League over prohibition enforcement. Reed contends that it would also make the Department of Justice subservient to the Prohibition Commissioner. If passed at all, he says, the bill should be amended so as to place prohibition enforcement under the Department of Justice instead of the Treasury, where it now is.

Fight on Banking Bill. Reed began to talk against the branch banking bill Monday night. He carried on a single-handed opposition to such good effect that the bill was laid aside until yesterday, when he again took up the burden. The killing of the bill appeared likely if Reed could enlist two or three helpers.

This is the so-called McFadden bill, which has gone through the House and been reported, with amendments, by the Senate Committee on Banking and Currency. The bill would let national banks establish branches in their home cities. In those States which permit branch banking by State institutions.

Reed described it yesterday as being "neither fish, flesh nor fowl." If branch banking is a good thing, he asserted, its benefits ought to be conferred on all States, and not merely on the 22 that would be affected by the proposed law; if a bad thing, then it ought not to be permitted even to the limited extent proposed.

More intriguing to the Senator than his fight on the banking bill, or even than the prospect of taking a wallop at Wayne B. Wheeler of the Antislavery League, is the outlook for an oratorical shindy over the Warren nomination.

Reed is anxious to make a speech about Warren. Not since the great League of Nations fight has any subject so appealed to him. He remembers Warren vividly as one of the witnesses at the famous "fishy" investigation of a few years ago, conducted by a committee of which Reed was a member.

Reed is working now to have the nomination of Warren considered in an open session of the Senate. If this is done, there will be at least one speech—Reed's—against the nomination, and judging by the light of battle in the Senator's eye and the sugar trust data he is collecting on Warren, the speech will be one of the most memorable efforts of Reed's career.

Senate Committee Makes Favorable Report on Warren. Post-Dispatch Bureau, 20-22 Wyatt Building.

WASHINGTON, Feb. 25.—Charles Warren moved one step closer to the attorney-generalship yesterday the Judiciary Committee of the Senate voting nine to four in favor of recommending his confirmation.

The breaking of the deadlock

squared are those against the Cramton
bill, the branch banking bill and
the nomination of Charles Beecher
Warren to be Attorney-General.The Cramton bill is an Antisalo-
on League measure that has
passed the House and been favor-
ably reported by the Senate Judi-
ciary Committee. It has not re-
cently shown its head in the de-
bates on the Senate floor, but
whenever it does Reed is prepared
to crack it, and, if necessary, to
carry his fight to the extent of a
personal filibuster.The Cramton bill aims to take
the prohibition unit from under
the wing of the Internal Revenue
Commissioner and make it a sepa-
rate bureau of the Treasury De-
partment. If passed, it would en-
hance the power of the Antisalo-
on League over prohibition enforce-
ment. Reed contends that it would
also make the Department of Jus-
tice subservient to the Prohibition
Commissioner. If passed at all, he
says, the bill should be amended
so as to place prohibition enforce-
ment under the Department of Jus-
tice instead of the Treasury, where
it now is.Reed began to talk against the
branch banking bill Monday night.
He carried on a single-handed op-
position to such good effect that
the bill was laid aside until next
week, when he again took up the
word. The killing of the bill
appeared likely if Reed could en-
gage two or three helpers.This is the so-called McFadden
bill, which has gone through the
House and been reported, with
amendments, by the Senate Com-
mittee on Banking and Currency.
The bill would let national banks
establish branches in their home
states, in those states which per-
mit branch banking by State in-
stitutions.Reed described it yesterday as
being "neither fish, flesh nor
fowl." If branch banking is a good
thing, he asserted, its benefits
ought to be conferred on all States,
and not merely on the 22 that
would be affected by the proposed
law. If it had thing, then it ought
not to be permitted even to the
States that are not proposed.More intriguing to the Senator
than his fight on the banking bill,
or even that on the prospect of tak-
ing a wallop at Wayne R. Wheeler
of the Antisaloon League, is the
war on the Warren nomination.Reed is aching to make a speech
about Warren. Not since the great
League of Nations fight has any
subject so appealed to him. He
remembers Warren vividly as one
of the witnesses at the famous
"Hobby" investigation of a few
years ago, conducted by a commit-
tee of which Reed was a member.Reed is working now to have the
nomination of Warren considered
in an open session of the Senate.
If this is done, there will be at least
one speech—Reed's—against the
nomination, and judging by the
kind of battle in the Senator's eye
and the sugar trust data he is col-
lecting on Warren, the speech will
be one of the most memorable ef-
forts of Reed's career.Senate Committee Makes Favor-
able Report on Warren.Post-Dispatch Bureau,
20-23 Wyatt Building.WASHINGTON, Feb. 25.—Chas.
Warren moved one step closer
to the attorney-generalship yester-
day when the Judiciary Committee of
the Senate voted nine to four in
favor of recommending his confir-
mation.

The breaking of the deadlock

POST-DISPATCH STARTS "PHOTOS BY WIRE"

Picture of Railroad Wreck, Made in New York Yesterday,
Comes Through to St. Louis in 10 MinutesWorld Record for Speed
In Sending EstablishedFeat Makes Possible Printing of Picture in
St. Louis 24 Hours Earlier Than if
Sent by Other Means.The photograph reproduced on this page was transmitted by wire
from the New York World to the St. Louis Post-Dispatch shortly after
midnight last night.The time of transmission for this picture was 10 minutes—a world's
record.The apparatus used was the Edouard Belin machine, introduced
in this country four years ago, when, for the first time in history, a
photograph was sent a distance of 1000 miles by wire. On this his-
toric occasion the Post-Dispatch successfully "wired" a photograph
from its office to the New York World.Since that day in 1920 the inventor and his aids have worked un-
ceasingly to perfect the apparatus, not only for wire circuits but to
utilize radio as well.Pictures of the Pennsylvania Railroad wreck, which occurred yester-
day, could not have arrived in St. Louis for publication earlier than
in the Home Edition of the Post-Dispatch of tomorrow. This view,
which came by wire last night, is therefore printed 24 hours earlier
than it could have appeared if sent by mail, special delivery.Vibrations of Diaphragm, Obtained by Use
of Needle, Make Negative on Kodak FilmA description of this highly interesting process, owned exclusively
in the United States by the St. Louis Post-Dispatch and New York
World follows:

By WILLIAM DINWIDDIE.

Four years ago the Post-Dispatch
and the New York World, as a
startling news achievement, trans-
mitted a photograph by wire from
St. Louis to New York City.These two papers were the pio-
neers in sending pictures by wire
in America. All previous at-
tempts, for distance, anywhere in the
world, were beaten, as the wire
used was 1150 miles long.It took the telephone company
a week, at great expense to the
two newspapers, to arrange this
special wire circuit, so that a sin-
gle photograph might be flashed
between the West and the East.
The French inventor, Edouard Be-
lin, with his wonderful and intri-
cate machine, found he could not
successfully use the complex wire
systems which permit one person to
talk to another 1000 or 3000 miles
away, while members of other pairs
of conversationalists are asking,
"What did you say?" or "How's the
baby?" or "Ship me at once," etc.,
on the same pair of wires, without
in any way interfering with one
another. Added to this marvelous
feat, a pair of wires, are dozens
of telegraph circuits, all pounding
away their dots and dashes, or
translating them into printed En-
glish on electrical-mechanical
typewriters, while the operator,
who manipulates the keys, may be
hundreds of miles away from the
receiving point.

Worried, Not Defeated.

Into this electrical maelstrom
was introduced Belin, the French
inventor. He went back to Pa-
ris, disappointed, but not de-
feated. Two years later he re-
turned with improved picture-
sending apparatus. In the mean-
time, the telephone colossus was
striding ahead. Still more he had
pyramided the uses of a single
pair of wires by the application of
"carrier currents" of higher fre-
quencies, or what is known as
"wired wireless." He was perfect-
ing a system of national broadcast-
ing, intercommunication, so that
millions might listen to the voice
of the President from his favorite
wireless station.Telephone engineers were called
to witness new tests of the Belin
machine, and forthwith retired
with their inventive imagination
fired to develop a picture trans-
mission system. Clever inventors
like Jenkins, Ives, Fleece, MacFar-
lane, Bartholomew, Wisner, all
were striving to solve the problem
from a practical and commercial
standpoint.Once more Belin retired to his
Paris laboratory, making excursions
to England now and again to
try out new devices on British
telephone wires. The Senator's
use is more complex than in
France, but far simpler than in the
United States.

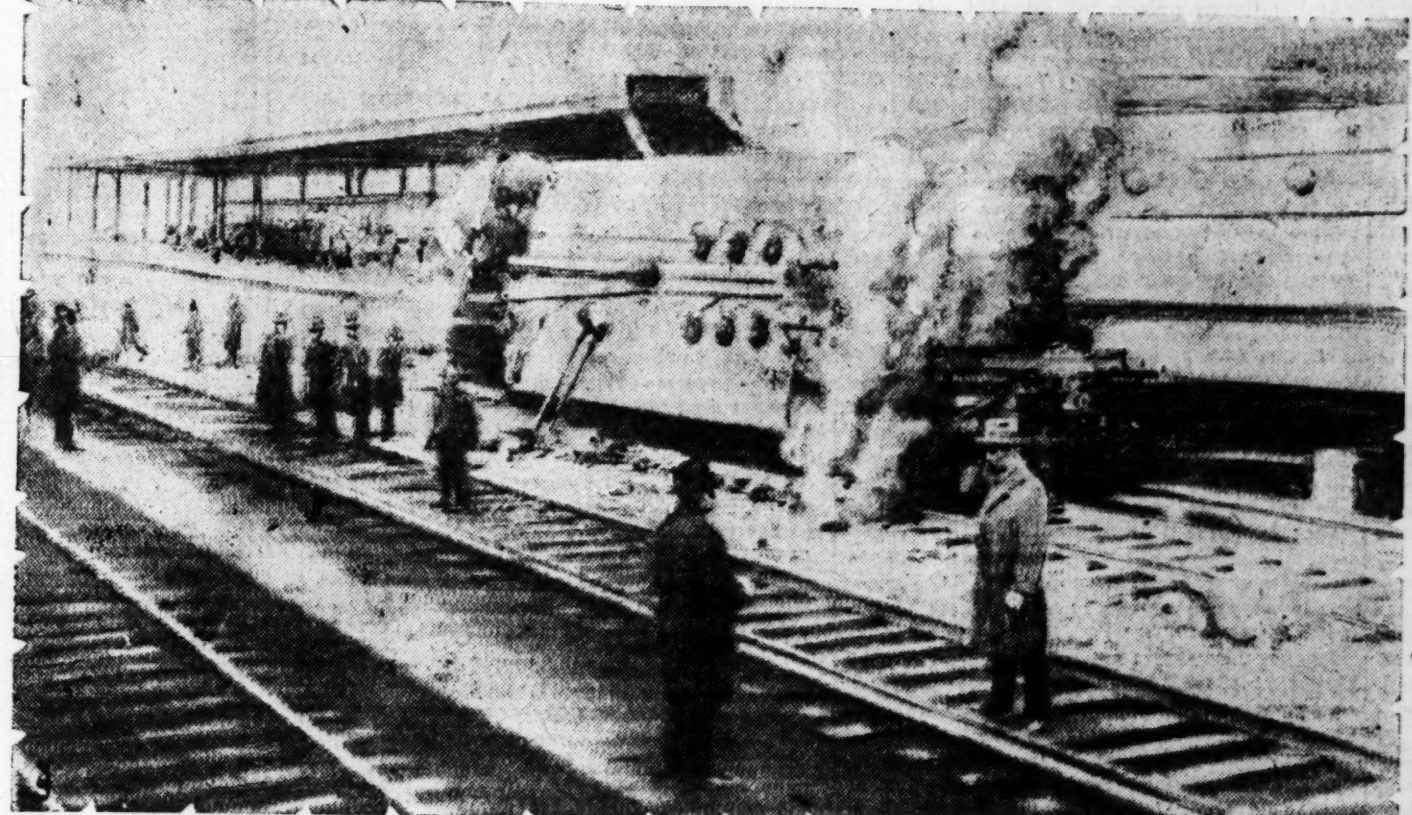

All Records Broken.

All world's records were beaten
last night by the Post-Dispatch
and the New York World, in speed
of transmitting news photographs
by wire.In the Post-Dispatch office to-
day are five photographs sent over
American Telephone and Tele-
graph wires last night in 52 min-
utes. Less than 11 minutes for
each photograph, 4 1/2 inches in size.It may interest many readers to
know how this seeming marvel is
performed. On the sending end,
an ordinary photographic negative
is used to print a picture on a pre-
pared gelatin surface, known as
"carbon tissue." After exposure
to the light, this tissue is glued
or pasted, gelatin face downward,
around a small brass cylinder. It
is then developed in warm water.That is, all the places where light
passes through the negative be-
come insoluble and where it does
not it remains soluble and the
warm water washes out or melts
this soluble gelatin. Thereby the
cylinder carries upon its surface a
picture in relief. All the shadows
are raised and the high lights de-
pressed.

Method of Transmission.

From this cylinder with all its
tiny hills and valleys a picture is
"talked" over a telephone wire.This is a special telephone trans-
mitter is furnished with a needle
or stylus, similar to that of a talk-
ing machine. This needle follows
the hills and valleys and vibrates
the diaphragm of the microphone
when one talks into a telephone
transmitter, vibrations resulting
from sound waves.At the other end of the line
a phone at the ear, the "talk-
ing" of the photograph can be heard.
It is not a language, just a series
of curious squeals and grunts and
squalls. To make a photograph
from these electrical impulses, a
tiny mirror, illuminated by a pow-
erful light, is used. The mirror
vibrates back and forth with the
waving band of light, exactly fol-
lowing the lights and shades of the
far distant picture being sent. This
band of light strikes through a
tiny hole into a cylinder carrying
an ordinary kodak film upon its
surface. Much light goes through
the hole for the shadows and lit-
tle for the highlights. Round and
round travels the sending cylinder,
making 120 lines for every inch of
picture. The receiving cylinder
travels at exactly the same rate
of speed. For a four-inch picture
the cylinder revolves 528 times.
The film on the receiving cylinder
is taken into the dark room, and
developed, as one does any kodak
film. There is the picture, though
the original is more than 1000
miles away.

A Look Into the Future.

Soon in the newspaper offices
of this country may be heard, per-
haps, conversations like this:
"Hello! This is New York talking."
"Hello, Cincinnati. Hello, Detroit."
"Hello, St. Louis. Hello, Kansas
City. Hello, Denver. Hello, San
Francisco. We are transmitting
photos of six gunners who tried to
assassinate multimillionaire X, also
picture of victim just after the en-
counter; story going forward on the
same wire circuit by page printer.
Are you ready?" "Shoot," comes
from a dozen distant voices, and
simultaneously all are receiving the
identical picture, while the
editors watch the story unfold on
a printed typewriter sheet before
them.The country has not been favor-
able to blocking the President's
nominations of his own Cabinet,
some big Democratic newspapers
insisting that unless moral turpi-
tude on the part of the appointee
was shown he should get the place.The photograph reproduced on this page was transmitted by wire
from the New York World to the St. Louis Post-Dispatch shortly after
midnight last night.The time of transmission for this picture was 10 minutes—a world's
record.The apparatus used was the Edouard Belin machine, introduced
in this country four years ago, when, for the first time in history, a
photograph was sent a distance of 1000 miles by wire. On this his-
toric occasion the Post-Dispatch successfully "wired" a photograph
from its office to the New York World.Since that day in 1920 the inventor and his aids have worked un-
ceasingly to perfect the apparatus, not only for wire circuits but to
utilize radio as well.Pictures of the Pennsylvania Railroad wreck, which occurred yester-
day, could not have arrived in St. Louis for publication earlier than
in the Home Edition of the Post-Dispatch of tomorrow. This view,
which came by wire last night, is therefore printed 24 hours earlier
than it could have appeared if sent by mail, special delivery.The photograph reproduced on this page was transmitted by wire

This photograph, showing two overturned cars at Manhattan Transfer, just across the Hudson River, New York City, on the Pennsylvania lines, was taken Tuesday and sent by wire at midnight from the New York World office to the St. Louis Post-Dispatch. The actual time of transmission was 10 minutes.

FAILURE OF AIRBRAKE
BLAMED FOR 3 DEATHSOfficial Reports Rock Ballast
Thrown Against Valve
Caused Wreck.By the Associated Press.
HARRISON, N. J., Feb. 25.—Preliminary investigation has
shown that failure of the air
brakes was the cause of yester-
day's wreck, in which three em-
ployees were killed and more than
20 injured at the Manhattan trans-
fer station of the Pennsylvania
Railroad, Chairman Osborne of the
Public Utilities Commission said
today.Examination of the wreck indi-
cated, he said, that rock ballast
thrown up on the roadbed had
struck and closed an angle valve
on the airbrake line between the
locomotive and the first car of the
Philadelphia local train, which
crashed into the rear of the Atlantic
Coast Line express. He said the
brakes of the locomotive were set
with terrific force. The string of
cars behind the closed angle valve
were not braked, he said, due to
the evident accidental closing of
the valve.George Huether of Newark, car
inspector, one of those killed, had
planned to be married in June to
Miss Katherine Brady, also of
Newark, it was learned today.

Threatens Press Agents.

He added that "if press agents
attempt to exploit the fact that
complaints have been made against
such plays, I reserve the right to
submit such plays to the grand jury
instead of to the Play Jury."Informed of the District At-
torney's decision, Kenneth Mac-
Gowan of the producers of "Desire
Under the Elms" repeated that he
and his associates were perfectly
willing to submit the play to a play
jury. He pointed out that he and
the actors were bound, through the
contracts of the Actors' Equity As-
sociation, to abide by the decision
of the jury."It is the country man who
comes to this city, demanding and
ready to support the immoral play,
who is responsible for the presence
of salacious shows in New York,"
the District Attorney told students
in Columbia University yesterday
afternoon."New York City does not sup-
port the immoral show and mak-
ing," he said. "If it were not for
the out-of-towner these shows
would never have a chance to ex-
ist."

75 Per Cent Pure.

Last Saturday hundreds of the
students had witnessed "Desire
Under the Elms" as guests of
O'Neill. Yesterday they heard the
show scathingly denounced by the
District Attorney."It is a violation of the penal
code to produce a salacious play,"
Banton said, "but there is a joker
in this section of the code. Not
only must the District Attorney's
office prove that the play is sa-
lacious, but it is also necessary to
prove that it is actually degrading
the morals.""Seventy-five per cent of the
plays in New York are absolutely
O. K. There is nothing about them
that can be questioned." Only 25
per cent or less are bad plays."

Submarine Displaces 3000 Tons.

LONDON, Feb. 25.—Built at a
cost of \$20,000 (\$4,100,000) Brit-
ain's giant submarine, X1, soon
will conclude her trials and prob-
ably start on a tour to Singapore
and back. She is declared to be
the most powerful under-water
craft ever built and has developed
a speed of 37 knots on the sur-
face. Under water she has a dis-
placement of 3000 tons and can be
turned almost in her own length
of 350 feet.PLAY JURY LIKELY TO
GET CASE IN FEW DAYS'Desire Under the Elms,' Which
Producers Refuse to Withdraw,
Probably Will Go to It.By Leased Wire From the New York
World.NEW YORK, Feb. 25.—The Cit-
izens' Play Jury will determine the
fate of all plays complained of as
obscene or immoral, District At-
torney Banton announces.The list includes Eugene O'Neill's
much discussed "Desire Under the
Elms," which Banton has declared
objectionable under the penal law.
Instead of being taken before the
grand jury, following the refusal of
its producers to withdraw it, this
play probably will be the first given
to the Citizens' Jury.The District Attorney expressed
his opinion that the Play Jury plan
should begin to function at once,
and announced that the first jury
would be drawn as soon as he
could put into operation certain de-
tails of the plan. It is expected the
first case will be taken up within
a few days.Banton said he would make no
further announcement regarding
plays complained of, but would
quietly turn over complaints to the
jury.PRESIDENT'S SECRETARY VOTED
PAY BOOST OVER HIS PROTESTRepresentative Sanders, Who Will
Get Post March 4, Pleads With
House to Vain.WASHINGTON, Feb. 25.—The
House voted to increase the salary
of the President's secretary from
\$3000 to \$10,000 a year over the
protest of Representative Sanders
(R-Ia.), Indiana, who will hold the
post after March 4.Sanders was absent from the
floor yesterday when the House,
considering the deficiency appro-
priation bill, adopted an amend-
ment providing for the increase.
He later appealed to his colleagues
to reverse their action, but his re-
quest for unanimous consent for
reconsideration of the amendment
brought objections from half a
dozen or more members.Sanders, in urging reconsidera-
tion, asserted that he had "enthu-
siastically supported" the increase
voted by Congress in salary of the
President's secretary. He said he
was a multimillionaire X, also
picture of victim just after the en-
counter; story going forward on the
same wire circuit by page printer.
Are you ready?" "Shoot," comes
from a dozen distant voices, and
simultaneously all are receiving the
identical picture, while the
editors watch the story unfold on
a printed typewriter sheet before
them.The country has not been favor-
able to blocking the President's
nominations of his own Cabinet,
some big Democratic newspapers

TO REGISTER FOR THE
CITY ELECTION APRIL 7REGISTRATION for the pri-
mary of March 13 and the
city election of April 7 will
be held tomorrow in all the 624
city precincts, at the precinct
polling places, from 8 a. m. to
9 p. m.Those who registered for last
November's election, and who
still live where they lived then,
are registered now, and need
pay no attention to tomorrow's
registration. Those who have
moved since last fall's registra-
tion, who for any reason were
not registered then, who have
become of voting age since the
last election, or will become of
age on or before April 7, should
go to their precinct polling
places tomorrow.This will be the only opportu-
nity for registration before the
April election, in which a
Mayor, Comptroller, 14 Alder-
men and four members of the
Board of Education are to be
chosen.FARM LEGISLATION IS GIVEN
PREFERENCE IN THE SENATEBorah Brings Rearrangement by
Demand for Extra Session to
Consider Agriculture.By the Associated Press.
WASHINGTON, Feb. 25.—Under
a rearrangement of the Senate leg-
islative program for the remaining

bodying the principal recommenda-
tion of the President's agricultural
conference—the Capper-Haugen
Co-operative Marketing Bill—has
been given preferred status on a
priority list of less than a dozen
measures.Decision to place the co-operative
bill behind the general omnibus
pension measure, which has right
of way after disposal of the pen-
ding banking legislation, was reached
yesterday by the Republican Steer-
ing Committee. The action was
taken after Senator Borah, Repub-
lican of Idaho, who characterized
the Capper-Haugen bill as a
"make-shift," had again demanded
an extra session of Congress to
consider a comprehensive program
of farm aid.The farm bill was placed on the
list where action on the legislation
by the House could be awaited.
Leaders explained, with the idea of
expediting final action by substi-
tuting the House measure for that
pending in the Senate. The Haugen

day for action under a special rule
adopted last week.When the rivers and harbors au-
thorization bill, fourth on the Sen-
ate list, is taken up, proponents of
the Cape Cod Canal purchase bill
and the Gooding long and short
haul measure will attempt to use
it as a vehicle for putting these
bills through as riders.

Coolidge to Attend Dedication.

By the Associated Press.
COLUMBIA, Tenn., Feb. 25.—
The Meriwether Lewis Monument
Association here announces that
President Coolidge will attend the
dedication of the Meriwether
Lewis Monument in Lewis County
as a national monument, on Aug.
18.The photograph reproduced on this page was transmitted by wire
from the New York World to the St. Louis Post-Dispatch shortly after
midnight last night.The time of transmission for this picture was 10 minutes—a world's
record.The apparatus used was the Edouard Belin machine, introduced

FIGHTS POSTAL BILLObjects to Measure Because of
Corrupt Practices Rider—
Coolidge May Veto Act.Post-Dispatch Bureau,
The New York Building.WASHINGTON, Feb. 25.—Wayne
B. Wheeler has suddenly
mobilized the politically potent
forces of the Antisaloon League
against the postal pay and rate in-
crease bill, and simultaneously
President Coolidge has signified
to Postmaster General New that
because the measure is retroactive
on the pay increase it may be
vetoed.What the dry powers are fight-
ing is the rider of Senator Walsh
(Dem.) of Massachusetts to set
up a new corrupt practices act.
The drys have passed around the
word in Congress that this rider is
obnoxious because it will require
the Antisaloon League to make
public reports on the amounts of
money expended in state cam-
paigns.As this is the real field of the
dry lobbyists, they oppose turning
the campaign fund searchlight into
those activities.The Walsh rider survived the
conference which reported the pos-
tal bill yesterday in virtually the
form in which the measure was in-
troduced into the Senate by Moses
of New Hampshire, chairman of
the Senate Committee on post-
offices.House Adopts Conference Report
on Postal Pay Bill.By the Associated Press.
WASHINGTON, Feb. 25.—The
conference report on the postal pay
and rate increase bill was adopted
today by the House.Senate concurrence is necessary
before the measure can go to the
President.RIVER APPROPRIATION IS HALF
OF AMOUNT SOUGHT FOR WORKDistrict Engineers Request Levee
and Retention Funds Total-
ing \$20,000,000.Application for allotments of
portions of the \$10,000,000 Federal
appropriation for reversion and
levee work on the Mississippi River
for this year, which will be an-
nounced within the next 10 days
by the House, was reached yester-
day by the Republican Steering
Committee. The action was
taken after Senator Borah, Repub-
lican of Idaho, who characterized
the Capper-Haugen bill as a
"make-shift," had again demanded
an extra session of Congress to
consider a comprehensive program
of farm aid.The farm bill was placed on the

ST. LOUIS POST-DISPATCH

Founded by JOSEPH PULITZER
Dec. 12, 1878.
Published by the Pulitzer Publishing
Company, Twelfth Boulevard
and Olive Street.

THE POST-DISPATCH PLATFORM.

I know that my retirement will make no difference in its cardinal principles, that it will always fight for progress and reform, never tolerate injustice or corruption, always fight democracy of all parties, never belong to any party, always oppose privileged classes and public plunderers, never lack sympathy with the poor, always remain devoted to the public welfare, never be satisfied with merely printing news, always be drastically independent; never be afraid to attack wrong, whether by predatory plutocracy or predatory poverty.

JOSEPH PULITZER.

April 10, 1907.

LETTERS FROM THE PEOPLE

The name and address of the author must accompany every contribution, but on request will not be published. Letters not exceeding 200 words will receive preference.

Register.

To the Editor of the Post-Dispatch.

To be eligible to vote at the primary election it is necessary for you to register tomorrow, Thursday, Feb. 26, if you have moved or have reached voting age since Nov. 4.

The significance of each individual vote at the primary election is frequently lost sight of; we never fail to register our choice at a national election with a feeling of a duty well done, yet at the primaries and municipal elections, where we must select the contenders for the various offices in whose hands we are asked to place the affairs of the municipality, we are indifferent, or leave this important choice to the office seeker and his followers.

The need for an honest, intelligent and conscientious administration has never (in our history) been of such proportions as at present.

St. Louis is in the midst of an era of progress unequalled in our past, and not surpassed by any other city of like proportions.

If we are to continue our climb to the top, we must elect public servants of sterling character and unquestionable integrity, who will give to their offices their whole effort, their whole spirit and a determination to put St. Louis in the foreground (where she belongs).

You can have no voice in their selection unless your name is on the registration books. Irrespective of your politics, see that you are registered Thursday.

JUNIOR ADVERTISING CLUB OF ST. LOUIS.

More Education—Not Less.

To the Editor of the Post-Dispatch.
IT was indeed distressing to me to read the article of "High School 1924—Mo. U." For a person who has graduated from high school and college to make a statement which practically suggests abolishing high schools, and therefore colleges, in this day and age of advancement, seems idiotic. The ancient Greeks trained their children in the art of warfare. Then the Old English were taught the alphabet, various legends and some songs. Fifty years ago the average child was taught reading, writing and arithmetic. This was equivalent to about four grades of modern-day grammar school.

We have now come to the day when everyone must have a grammar school education, and the demand is for high school graduates and college alumni. The next advancement will be high school education compulsory and college alumni preferred. So why go backward?

What ambition in life have the grammar school graduates? Not nearly as high as the high school graduates. The higher the ideals and ambitions of our coming generation, the farther will our universe advance.

So here's for the high schools for everyone that wants them. SOLDAN.

Relative Value of News.

To the Editor of the Post-Dispatch.
THE writer takes a mournful satisfaction in pointing out the accuracy of his recent statement as to the relative space given to the cave victim and that given the numerous victims of a mine disaster. The second day's budget of news of the Sullivan tragedy is relegated to the third page.

The scant column allotted to it is most fittingly called out by the announcement of Homer Collins' debut in burlesque. A most artistic bit of comic relief after that harrowing three weeks. It rounds off the whole episode perfectly—"points the moral and adorns the tale."

RELATIVITY.

Poorly Paid City Employees.

To the Editor of the Post-Dispatch.
WHY make such a fuss about the police and the fireman's salary when other city employees are getting only half what these men are getting? Take the men in the Street Department, for instance. They are the poorest-paid men in St. Louis. They have to live on raw days; also, and in the winter, they are laid off. Then take the men in the Park Department. They get to work about seven months at \$13.50 a day; then they get laid off, and those that keep working only get to work from three to six days out of every pay, or every 15 days. The city sure treats these employees badly.

I have voted the Republican ticket for the past 40 years, but no more for me. I have worked for the city in different departments, but most of the time in the Park Department; they don't get enough money for what they have to do. Pushing a lawn mower all day isn't as new as it looks. If the Republican party gets defeated in the spring election it will be their own fault. Why not boost the salary where it is most needed? These laborers have to live as well as a policeman. They have to meet the high cost of living and high rents as well as the men with large salaries. J. J. D.

WANTED: A RATE REDUCER.

Alarm is felt in many circles at efforts by Congress to remove the Pullman surcharge. It is feared that such a precedent would make Congress a rate-making body. It is argued that, if the interest seeking removal of this charge can secure relief from Congress, any other interest seeking relief from an excessive transportation cost can logically and confidently solicit the favor of Congress.

Another argument is that the returns from this surcharge, amounting to some \$37,000,000 annually, are an important item in railroad earnings, particularly in the case of struggling railroad companies.

Those objections appear to be well taken. Certainly if Congress exercises the power of rate making in this instance, a power it vested in the Interstate Commerce Commission when it created that board, Congress is pretty sure presently to find itself showered with rate-reducing petitions. If that happens will Congress be solely or primarily at fault? Why has Congress made two attempts, one direct, the other indirect, to remove the Pullman surcharge? There are several reasons. One reason is the Interstate Commerce Commission's refusal to act. Another is the waning public confidence in the Interstate Commerce Commission; the impression that the commission is out of touch with public sentiment and necessity; the suspicion that the commission, after the fashion of bureaus, has become an austere tribunal, almost inaccessible to the public, sedately deliberate, even geologic, in its processes; the supposition that as a rate-reducing body the Interstate Commerce Commission has just about ceased to function.

All this may be unjust, but it fairly accurately sketches the public attitude towards the commission. Now, what is to be done? With the Government fixing railroad rates as it is there must be a governmental body of some kind with the power and the disposition to reduce rates. Manifestly, the only body that can presume to exercise that power is Congress. And with the Interstate Commerce Commission seemingly resolved upon protecting the inviolability of present railroad rates the public, wisely or unwisely, will approve such assumption by Congress.

Finally, the Pullman surcharge is an extortionate charge, for which the railroads have never tried to render any equivalent in service. It is an imposition which cannot be defended on the plea that the railroads need the money or by theorizing as to the dangerous consequences that may ensue if Congress goes into the rate-making business.

The fact is that the Interstate Commerce Commission and the railroads both need a rude awakening.

A WONDERFUL CORPORATION.

Perhaps there never was a corporation with such a remarkable record as the Continental Trading Co. of Canada. It was born, it made millions, and it died with ominous peacefulness, all in a few months. It purchased 23,333,333 barrels of oil for \$1.50 a barrel, and resold them immediately for \$1.75 a barrel. This was a most unusual transaction, for the oil was sold at that profit to no others than Harry Sinclair and his associates, who hardly rank as philanthropists. The Continental paid a quick dividend of 16.22 per cent, folded up its books and gave up the ghost.

The Continental never saw a drop of oil, but it did see the color of Sinclair money. One of the mysteries of the age is the identity of the persons among whom the profits were distributed. Mr. Pomeroy, who is conducting the oil suits, would like to make some inquiries along this line of H. S. Osler, president of the Continental, but Mr. Osler is in Africa and expects to be there for some time. Certain other gentlemen connected with the deal are in France, where they are pursued by letters rogatory. Mr. Sinclair refuses to be quoted. And there you are.

In the meantime, the oil suits approach the time for trial. To have that trial without a full history of the activities of the Continental Trading Co. would rob it of a most interesting aspect. It would be quite a hardship to be deprived of the secret of the Continental's success and the names of the lucky ones who shared the melon.

A BANKRUPTCY OF IDEAS.

It is pleasant to hear that Clem Shaver has wiped out the debt of the Democratic party, including a deficit of \$260,000 hanging over from the campaign of last fall. Bankruptcy of its treasury, however, is a minor affair when the party's real trouble is bankruptcy of ideas. Just now it is a nondescript bulk, floating aimlessly about, with no captain on the bridge and a crew conspicuously lacking in morale.

As the party out of power, it has a valuable duty to perform, that of maintaining an intelligent and constructive opposition. But what in Great Britain is so highly regarded as an integral part of government that it is called His Majesty's Opposition is nonexistent here. Obstruction is not opposition. Guerrilla warfare in the halls of Congress is not opposition.

What the Democratic party needs and must have, unless it is to dwindle away, is a program of principles which it can champion, and a leadership round which it can rally. To content itself, as it has been doing, with discussing Republican corruption, is not enough. The people quite evidently prefer Republicanism with its corruption to a Democracy whose leader is neuter.

Material for a constructive opposition in national politics lies ready at hand, and much more will be available when Mr. Coolidge's new term gets under way. When the Democratic party redeems itself from its bankruptcy of courage and ideas, the treasury will take care of itself. In the meantime, however, Mr. Shaver is doing good work in putting the party financially on its feet.

VANITY AND VEXATION.

Fair co-eds of Union College at Lincoln, Neb., may not be as fair as they were, for W. W. Prescott, president of the institution, has banned the carmine lipstick, routed the rouge and had short skirts and low-necked dresses go. Where they are to go is uncertain, but the presidential edict forbids them to go about the campus as regalia of college maidens. That is his notion of protecting the morals of impressionable youth and giving the world something finer and better in femininity; a Merton of the realm of higher learning.

An educator may have much to learn, and all too often, refuses to learn it. In time, Percy Prescott may realize he took in too much territory, for the inalienable rights include woman's privilege of making herself attractive according to her own notions of

charm and pulchritude, and the chief of a fresh-water college cannot set it aside at will.

What he is less likely to understand is that panny has little relation to purity; that righteousness is not a matter of raiment. There was no conservatism of the draper's materials in the Elizabethan era, but the morals of the period fell far short of perfection. And he will not learn, or he would have known it now, that constantly increasing restraint and added inhibitions foster resentment and rebellion, which may be evils far worse than decolette dresses or lurid lips. The petty tyranny of those who would shape all others to their own standards do damage where good is meant and breed contempt for authority generally.

THE IMPORTANCE OF REGISTRATION.

The usual pre-election drive to arouse citizens to the duties necessary to preserve democratic government has begun. The new Election Board is commendably active in endeavoring to complete the registration tomorrow of citizens eligible to vote but not enrolled as voters.

Experience hardly permits the hope that the city primaries will draw out a vote of presidential proportions. That is all the more reason why every effort should be made to increase participation in the election by drawing from all sources, including the present unregistered.

The coming election is peculiarly important because the next administration will exercise a powerful hand in getting results from bond issue funds and will be called upon to meet the ever-growing problem of operating the city efficiently and economically and avoiding unnecessary drains upon the revenue resources. The primary will be no less important than the final election. It may turn out to have been the determining factor in the choice of the next administration.

St. Louis' vote could have been deducted from the presidential election without affecting the result. The city primary in March and the election in April will come closer home to the St. Louis voter, and his vote will have far greater weight in the decision. Tomorrow affords the opportunity of registration for those who failed to enroll for the November election, for those who have changed their residence since that election and those who will have become of age since that time and before April 7.

ONE WAY TO PREVENT CRIME.

Chief of Police Collins of Chicago took a step in the right direction towards prevention of crime when he issued orders recently prohibiting the detention of children in jail cells. He believes that a few hours in a police cell with hardened criminals will give the average youngster a flying start on a real life of crime.

There is no doubt of that. The receptive mind of the youth is quickly poisoned; his character is easily molded. The plea of the boy who violated his parole from the reformatory at Booneville that he be not sent back there, "where he learned nothing but how to hold up people," served to bring home to the public the need for segregation of youthful delinquents and adult criminals.

St. Louis has a House of Detention for youths who come afoul of the law. An intermediate reformatory is proposed that would permit segregation of juvenile delinquents now sentenced to the institution at Booneville. There is no doubt but that with every precaution taken to prevent contact between the hardened criminal and the youthful delinquent crime will be greatly lessened.

THE TWILIGHT OF JAZZ.

The controversy as to the relative merits of jazz and nonjazz may continue. But popular choice is already being decisively registered. John A. Holman, broadcasting manager of the American Telephone and Telegraph station, WEAF, reports that in January, 1925, 75 per cent of letters received from radio fans called for jazz. A year later the percentage fell to 35. In January, 1925, Mr. Holman, of 54,000 letters received only 5 per cent preferred syncopated entertainment.

The experience of K S D has been similar. The demand for classical and melodic music so far exceeded that for the other variety that jazz programs were abandoned.

A partial explanation may lie in the fact that the interest in radio listening has shifted largely from youth to the older generation whose tastes were formed before the saxophone deluge. The story told in the WEAF figures, however, can hardly be accounted for by this consideration alone.

Apparently jazz satisfied a demand of post-war psychology that nothing else in the line of music could. It may have been of benefit in relieving wrought nerves and in letting down the mental state of habitual excitement as no other harmless form of expression could. In that case the fact that we have had enough of it indicates a resumption of mental and temperamental normalcy. On the strength of this manifestation we may now even begin to look for the recession of the crime wave but trust that no sort of reaction or departing mania will restore pre-war fashions for women.

HE'S NOT ALWAYS SLOW.

"GRANNY GET YOUR HAIR CUT."

(George County Times.)

Granny get your hair cut;
Paint your face and shine,
Granny get your hair cut,
Short like mine.

If you want to kick high and have a big time,

Granny get your dress cut short like mine,

Come to the club with paint on your nose,
Don't mind your dress so you wear silk hose.

Come to the dance like the gray mule satchel,

Cut a big shine in granddad's barechees.

Stand on your head, Granny, kick at the moon,

Like we girls do when we want to marry soon.

Don't be ashamed, nor think you are fast,
For modesty and virtue are things of the past.

We'll go to the ball ground where the boys play bat,

And we'll go to the park where the girls skin the cat.

We'll ride the gray mule without skirt or saddle,

For now the men walk and the women ride a-straddle.

Come to the bathing pool,
Granny, and dive like a shad.

Like we girls do, when we hide with the boys from dad.

Come to the movies where all silly women come,

For that which was once vulgar is now only fun.

Then, Granny, get your hair cut, caper and shine,

Granny get your dress cut short like mine.

Granny get your hair cut, caper and shine,

Granny get your dress cut short like mine.

Granny get your hair cut, caper and shine,

Granny get your dress cut short like mine.

Granny get your hair cut, caper and shine,

Granny get your dress cut short like mine.

Granny get your hair cut, caper and shine,

Granny get your dress cut short like mine.

Granny get your hair cut, caper and shine,

Granny get your dress cut short like mine.

Granny get your hair cut, caper and shine,

Granny get your dress cut short like mine.

Granny get your hair cut, caper and shine,

Granny get your dress cut short like mine.

Granny get your hair cut, caper and shine,

Granny get your dress cut short like mine.

Granny get your hair cut, caper and shine,

Granny get your dress cut short like mine.

Granny get your hair cut, caper and shine,

Granny get your dress cut short like mine.

Granny get your hair cut, caper and shine,

Granny get your dress cut short like mine.

Granny get your hair cut, caper and shine,

Granny get your dress cut short like mine.

Granny get your hair cut, caper and shine,

Granny get your dress cut short like mine.

Granny get your hair cut, caper and shine,

Granny get your dress cut short like mine.

Granny get your hair cut, caper and shine,

Granny get your dress cut short like mine.

Granny get your hair cut, caper and shine,

Granny get your dress cut short like mine.

Granny get your hair cut, caper and shine,

Granny get your dress cut short like mine.

Granny get your hair cut, caper and shine,

Granny get your dress cut short like mine.

Granny get your hair cut, caper and shine,

Granny get your dress cut short like mine.

Bainbridge Colby thinks.

George Washington would not have permitted Wayne Wheeler to sit in the galleries of Congress and exercise wigwaggle control over the members, and no doubt others speaking on Washington's birthday readily happened to take on most public questions. We were told on Lincoln's birthday where Lincoln would have stood as to this and that current issue, and perhaps thousands of speakers used Lincoln to push their own beliefs. Our opinion is that we are doing as well with our contemporaries as we would do with anyone redoubtable. We cannot be sure what sort of men they were. The people among whom we live now are full of surprises. Did we not all wonder somewhat when the 31 eminent statesmen, educators and divines joined in the celebrated assurance as to Mr. Harding? Had almost any one of those men been dead we would have said that he would have been incapable of such a deception. No speaker should go farther than to say how valuable men like Washington and Lincoln would be if they were alive today and he had them on his side, whatever that side is. We have had too many disappointed men in the living great to lay any bets that the dead awake would not give us the biggest surprise of all.

PARAGRAPHS.

Maybe the San Diego Chamber of Commerce thought that some of the 114,000 faithful would get disgusted waiting for the magic cloud to show up and would come out to the appointed place via the regular means of transportation.

One thing necessary in order for horse flesh to come into its own in Missouri would be the return of common horse sense.

Gov. Baker's idea probably is to keep the dough in the family.

Senator Reed himself admits that he is getting to be more gentle. Maybe it's just a scheme of the Senator's to inveigle some of his foes into attempting to put something over that's unpopular with him.

THEODORE TRILSEY.

The following is from a dining car menu on the Missouri Pacific:

Missouri Pacific Railroad Company;
Gulf Coast Lines

We assume that these are the Gulf Coast Lines recently joined with the Missouri Pacific, but as between "Gulf Coast" and "Gulf Coast" we think the latter is much likelier to attract visitors.

NUTS.

"Own your own home! The monkeys do—so why not you?"

This I read in a street car ad. At first it made me feel quite sad. Then it made me laugh and kinder guess. Now would you like to be a monkey—yes? And own a house?

I am from Missouri, and I've climbed many a tree.

But they never found any monkey in me.

I may not own a home, I'll say this aloud. But I own eight healthy children and a good wife, of them I am proud.

To keep this small happy family, you see, Has taken all the monkey business out of me.

PAUL G. ULLRICH.

Luxemburg, Mo.

The MIRROR of PUBLIC OPINION

A CASE FOR INSTANT ACTION.

From the Chicago Journal of Commerce.
To keep alive the good name of the Federal Judiciary, the House of Representatives should take action on the resolution of Congressman Hawes of St. Louis for an investigation of the official conduct of George W. English, United States District Judge for the Eastern Judicial District.

It is overwhelmingly probable that Judge English is innocent of the charges of misconduct which are made against him; we say it is overwhelmingly probable, because he is a member of the Federal Judiciary, and as such he is one of a body of men whose untainted robes are the pride of the nation. But in order to keep that robe clean, there should be no slightest delay when an investigation is demanded.

Judge English is accused of misconduct by a former Federal District Attorney of his district. He is accused by a former State's Attorney, and by a City Commissioner of East St. Louis. Congressman Hawes lists 71 witnesses for testimony. The subcommittee of the House Judiciary Committee has unanimously recommended that the case be investigated. But when Congressman Graham of Illinois, chairman of the committee, asked unanimous consent to introduce the resolution, Speaker Clegg refused to recognize him, on a technical ground.

Surely this is no time for technicalities. This session of Congress will soon end. There is little time left for the resolution to pass. For his own sake, Judge English should make a personal request to Congress for the immediate passage of Congressman Hawes' resolution.

OUR MORAL OBLIGATION.

From the New York Times.
COL HARVEY, a couple of weeks ago, ironically congratulated Secretary Hughes upon being able to construe a document which he had not read. Well, Mr. Hughes has read it now, and so has the Senate. Yet the Secretary's interpretation of it is precisely the one he gave our before.

He continues to maintain that the Paris agreement lays no obligation whatever upon the United States, whether legal or moral. He adds, in his letter to the President, which was forwarded to the Senate, that "the agreement makes no provision for sanctions, and does not commit the United States in any way to any action in case the contemplated payments are not made."

This is no doubt correct. Yet there are sanctions lying behind the Dawes plan. They were explicitly provided for in the London agreement of last summer, in which our Government benevolently participated.

Today we have placed ourselves in the position of being a beneficiary of the Dawes plan, and if anything should happen to prevent us from getting the money under the operation, the natural inference would be that our Government would at least look around to see what could be done. If it did not, who can doubt that Congress would urge the administration to see to it that we get our rights? It is not a question of our having bound ourselves to do anything, but solely of our self-interest and national dignity requiring us to do something.

In case of a default by Germany, we have pledged ourselves to do anything to make the Dawes plan a success, but we have taken steps which render it almost impossible that we shall, in fact, do what we seem to us to be necessary to that end.

Dr. Darr to Speak on "Glands."

Dr. Darr P. Barr of the Washington University medical school faculty will speak tomorrow night in the school auditorium at Euclid and Scott avenues, on "Glands, Drains and the Fountain of Youth."

This is in the university's free public health course, and everyone is invited.

Lowan Is Offered Legion Post.

By the Associated Press.
INDIANAPOLIS, Ind., Feb. 25.—James P. Barton of Fort Dodge, Kan., will come to national headquarters of the American Legion as assistant national adjutant about April 1, if he accepts the position offered him, National Commander James A. Drinn said upon his return from Des Moines, yesterday.

Music

Tito Schipa, Lyric Tenor From Chicago, Makes Local Debut Before Big Audience.

By RICHARD L. STOKES.

LYRIC tenor of prominence in the Chicago Civic Opera Company, Tito Schipa, made his St. Louis debut with a recital last night at the Odeon, under the auspices of the Civic Music League. He had a cold, and his voice did not appear to be of the most powerful, but his singing was of a high note instead of taking it with directness. All his songs were enlivened by a sprightly sense of rhythm, and some of them by a high note instead of taking it with directness.

STREET CAR FRANCHISE ORDINANCES PASSED

Measures Affecting East St. Louis and Suburban to Go to Referendum.

The three ordinances which grant exemptions to the East St. Louis & Suburban Railway Co. from certain provisions in its existing franchise were passed by the City Council of East St. Louis in special meeting yesterday, after a month of consideration. They will be submitted to the voters at the city election, April 7.

Commissioner M. J. Whalen, who has opposed the ordinances, voted alone against them. The clause which exempts the railway company from paying between the tracks on Seventh street from St. Clair avenue north, Whalen contends, establishes a precedent which may eventually be employed to gain exemption from paying between all its tracks.

Statement of the Mayor. Mayor Stephens, who has favored the passing of the ordinances, said yesterday there was no such motive in the clause, and that railway companies were being exempted from paying by other cities throughout the country.

Another provision, which permits the railway company to abandon the operation of cars over the Thirteenth street route to the viaduct at Ninth street and Lake avenue, has been opposed by Whalen as a curtailment of service, because the line was a poor paying one.

A third point of contention was a new license clause which provided an annual license fee of \$25 for each 18-hour unit of operation, instead of for each car as provided in the existing franchise. This clause was amended to conform with the franchise, after objections to it were followed by an abrupt motion to adjourn on Feb. 12.

Nature of Ordinances. In return for the grants, the railway company agrees to remove a steel pedestal supporting a viaduct of the railway company on the south street approach to the Ninth street subway. Representatives of railway companies, according to Mayor Stephens, have threatened to stop work on the subway unless the pedestal is removed. Aug. 1 has been set as the date for the completion of the subway at a recent meeting of the Illinois Commerce Commission.

Mayor Stephens said yesterday that according to his interpretation of the ordinances, the action of the council alone obligates the railway company to remove the pedestal, regardless of the outcome of the referendum vote.

COMMITTEE TRYING TO FIND HOLLAND BANK LETTERS

They Are Counted on to Show Whether Finance Department Actively Supervised Institution.

JEFFERSON CITY, Feb. 22.—The disappearance of correspondence of the State Department of Finance, which would disclose the activity or lack of activity of the department in the supervision of the \$5,000,000 Holland Bank of Springfield in the 18 months before it failed in Jan., 1924, has stirred the Farris Investigating Committee of the Senate into a determined effort to trace it.

Senator Hamilton of Springfield, a member of the committee, will try to find the missing letters, which committee members believe would throw light upon the methods of the department.

The committee in the course of its inquiry obtained a letter written by the department to the bank in July, 1922, in which many violations of law and irregularities were pointed out.

Desiring to know what steps the department had taken to enforce its demands on the bank and to know whether the letter of complaint was followed up, the committee served on Finance Commissioner Millsbaugh a subpoena directing him to send to the committee all further correspondence with the bank. Millsbaugh answered the subpoena with the Holland Bank letter file of his office, but the file contained only unimportant documents, and a memorandum slip showing that some of the files had been sent to the Prosecuting Attorney in Springfield for use in the prosecution of officers of the bank. Hamilton communicated with Harold T. Lincoln, the Prosecuting Attorney, who informed him that he did not have the files and had no recollection of ever having seen them.

11 ATTORNEYS ON "STRIKE"

Counsel for 16 German Communists in Row With Judge.

LEPIS, Feb. 22.—A row in court between Judge Medner and attorneys for the defendants in the trial of the 16 Communistes, charged with murder and terroristic acts, resulted yesterday in a strike of 11 attorneys for the defense.

The morning session came to a precipitate end with the forcible removal from court by police of Attorney Arthur Santer, one of the lawyers for the prisoners, after a hot verbal exchange with the Judge over the court procedure. After lunch the defendants' attorneys requested the court to adjourn until Thursday, while they made representations to the Department of Justice with regard to handling of the case. When, after deliberation,

the court declined to accede to the state to the defendants, left the offices of the defense, all the attorneys except two assigned by the court until today.

NORRIS PREPARED TO FILIBUSTER ON SHOALS BILL

Nebraska Senator Makes Plain He Will Try to Block Measure at This Session.

By PAUL Y. ANDERSON, A Staff Correspondent of the Post-Dispatch.

WASHINGTON, Feb. 22.—"I shall not pass," said Senator Norris, speaking of the Underwood Muscle Shoals bill. "Not at this session of Congress, at least," he added. That he can make this defiance good seems certain. He left no doubt that a filibuster will be resorted to in an extremity. "I realize," he continued, "that this bill, or something equally bad, probably will be put over at the next Congress. They will have the votes in the next Senate. But it is one comfort—it will not be possible to devise any bill worse than this one. Therefore, those Senators who believe that this great power site should not be turned over to the power trust, will keep on fighting as long as there is any hope."

Two Years' Study. Norris feels deeply about Muscle Shoals. The Senate Committee on Agriculture, of which he is chairman, spent two years studying the question. They examined numerous experts. All the available data and statistics were assembled and digested. It was a long and tedious process and the result was that Norris won over a majority of the committee to his public ownership plan. In the face of the formidable movement for leasing the plant to Henry Ford. Then the matter came before the Senate. It appeared that Norris had converted a forlorn hope into a triumph. Then, almost without warning, his bill was displaced by the hastily concocted Underwood measure, under which the Shaws' plant would be leased to private interests—"virtually given away," Norris said.

But the Underwood bill went to a joint conference, and when it came back Norris made a point of

NORRIS PREPARED
TO FILIBUSTER ON
SHOALS BILL

Nebraska Senator Makes
Plain He Will Try to
Block Measure at This
Session.

By PAUL Y. ANDERSON,
A Staff Correspondent of the Post-
Dispatch.

WASHINGTON, Feb. 25.—"It shall not pass," said Senator Norris, speaking of the Underwood Muscle Shoals bill. "Not at this session of Congress, at least," he added. That he can make this defiance good seems certain. He left no doubt that a filibuster will be resorted to in an extremity. "I realize," he continued, "that this bill, or something equally bad, probably will be put over at the next Congress. They will have the votes in the next Senate. But there is one comfort—it will not be possible to devise any bill worse than this one. Therefore, those Senators who believe that this great power site should not be turned over to the power trust will keep on fighting as long as there is any hope."

Two Years' Study.
Norris feels deeply about Muscle Shoals. The Senate Committee on Agriculture, of which he is chairman, spent two years studying the question. They examined numerous experts. All the available data and statistics were assembled and digested. It was a long and tedious process and the result was that Norris won over a majority of the committee to his public ownership plan. In the face of the formidable movement for leasing the plant to Henry Ford. Then the matter came before the Senate.

It appeared that Norris had converted a forlorn hope into a triumph. Then, almost without warning, his bill was displaced by the hastily concocted Underwood measure, under which the Shoals plant would be leased to private interests—"virtually given away," Norris said.

But the Underwood bill went to a joint conference, and when it came back Norris made a point of

Girl With Blade of Grass
In Lung Here for Treatment

JIMMIE ENGLISH.

order against it, on the ground that new legislation, not in the original House or Senate bills, had been written in, and Senator Cummins, president of the Senate, upheld the point. There was a vote on sustaining the chair Monday, and Norris scored a close and unexpected victory. The vote was 45 to 41. Three Senators, Reed and Pepper of Pennsylvania, and Smoot of Utah, all opposed to the Norris plan, voted with him on the mere parliamentary ground that the chair should not be overruled. By that narrow margin he won.

Others Ready to Help.
Senator Kendrick, one of the

Senate conferees, said that the of-
fending material would promptly
be deleted from the bill, and an
early report made.

But Norris said: "It shall not pass—at least, not at this session."

As material for filibustering
speeches, he has all the data which
he collected in two years of study
of the proposal, and there are other
Senators who are ready to help him
deliver it. Shipstead of Minnesota,
Smith of South Carolina, Simmons
of North Carolina, and others, are
ready to keep the bridge with the
Nebraska Horatius.

Unless unforeseen developments
arise, the Muscle Shoals bill hasn't
a chance in this Congress.

"GRASS GIRL" HERE
FOR LUNG TREATMENT

San Antonio Miss Has Abscess
From Swallowing Blade
Four Years Ago.

"Jimmie" English, the 11-year-old San Antonio "grass girl," who swallowed a blade of grass four years ago, causing a critical abscess of her left lung, near the heart, arrived in St. Louis at 11:30 a. m. today for treatment and a possible operation by Dr. Everts A. Graham, who has made special study of lung cases.

The child brought along her doll, Lois Mabel. She was accompanied by a woman physician and a woman writer for the San Antonio Light, which raised a public fund of \$1000 to bring the child here, since her family could not afford it. She was taken to Children's Hospital.

San Antonio surgeons feared to perform the operation they felt was necessary because of the proximity of the abscess to the heart.

After a cursory examination of the child patient and conversation with the physician who had accompanied her, Dr. Graham announced that X-ray pictures of the affected lung would be made this afternoon, but that "Jimmie" would not be examined thoroughly before tomorrow, giving her a chance to recover from the strain of the journey. "Jimmie" had been able to sit up a good part of the time on the train but was placed on a stretcher and at Union Station taken to the hospital in an ambulance. She was smiling in response to the friendly greetings at the station, but had little to say, having done her talking yesterday in admiring the beauties of the country as the train passed through Texas. That sort of thing was new to her and filled her with delight.

WORKMEN'S COMPENSATION
BILL IS ENGROSSED IN HOUSE

Opposition Is Voiced and Labor
Agents Apparently Are Taken
By Surprise.

Special to the Post-Dispatch.

JEFFERSON CITY, Feb. 25.—Contrary to expectations, the proposed workmen's compensation law, advocated by the Associated Industries and the business interests of the State generally, was engrossed in the House yesterday afternoon without opposition or even debate.

Representatives of organized labor appeared to have been taken by surprise and to have been unprepared to fight the bill, though they should have had ample opportunity to know when it would be reached. R. T. Wood, president of the State Federation of Labor, who was not in Jefferson City when the bill was acted on, said today that organized labor was opposed to it, and that he did not believe the measure would be passed. SENATE COMMITTEE AMENDS BILL ON BUS REGULATIONS

Provision Inserted to Permit Their Operation by Street Railway and Railroad Companies.
JEFFERSON CITY, Feb. 25.—An amendment to the McCawley bill placing bus lines in cities and between cities and towns under the regulation of the Public Service Commission, to permit street railway and railroad companies to operate busses without the organization of separate corporations, was adopted last night by the Senate Roads and Highway Committee.

Consideration of the bill was had by the committee at a public hearing which was attended by representatives of the United Railways, the city and the People's Bus Co. of St. Louis, and the Kansas City Railways Co. and several bus lines in Kansas City.

Under the amendment adopted street railway companies may obtain from the Public Service Commission a certificate of convenience and necessity to enable them to operate busses in connection with the car systems. This is intended as a protection for the railways to enable them to provide service instead of having to meet competition of independent bus lines, which would seriously cut into their revenues.

FOUR WEAPONS TAKEN IN RAID AT CLUB RETAINED

Constable Roth Thinks They May Have Been Used in Mail Truck Robbery.
A small-bore rifle and two revolvers, seized in a futile liquor raid at the Maxwell Club, headquarters of the Egan gang, on Feb. 11, were returned to James Noonan, manager of the place, by Constable Roth at Clayton yesterday, but Roth kept two shotguns and two army rifles seized at the same time.

Roth said he would turn the latter weapons over to Postoffice inspectors, believing they might have been used in the robbery of a mail truck downtown two years ago for which "Dumpy" Colbeck, the gang leader, and other Eganites are serving prison terms. The Constable thinks that if his surmise about the weapons is correct there might be grounds for prosecution of persons connected with the "club" for suppression of evidence.

Noonan argued that the firearms were taken illegally, as the search warrant was for liquor.

'GET YOU LATER,' SAID ROBBER; RETURNS TO HOLD UP GROCER

Masked Man Gets \$50 From Cash Register After Previous Unsuccessful Attempt.
A man with a handkerchief covering the lower part of his face entered a Kroger store at 1427 Montgomery street at 4 p. m. yesterday and robbed the cash register of \$50 after menacing Gus Brokate, 1105 Montgomery, the manager, and Stanley Breville, a clerk, with a revolver. "I told you I would get you," he remarked to Brokate as he ran out the door.

He was followed by the clerk through an alley to Clinton street and then east to Tenth, where he quickened his steps and disappeared.

Brokate said he recognized the man as the robber who tried to hold him up on Montgomery street between Fourteenth street and Blair avenue last Friday while on his way home from work. After a struggle, he said, the man fled, calling back: "I don't want to kill you, but I'll get you later."

SUES TO ANNUL MARRIAGE TO 18-YEAR-OLD HUSBAND

Mrs. Florence Brown, 26, Says He Misrepresented Age and Had a Violent Temper.
Mrs. Florence Brown, 26 years old, of 4404 McPherson avenue, yesterday filed suit to annul her marriage to Robert E. Brown, 18 years old, which took place Nov. 10 last at St. Charles. She states that it was not her intention to marry a minor, but Brown deceived her into an unsuitable marriage through misrepresentation as to his age.

She also states that he misrepresented his character to her and that she later discovered he had a violent temper.

Before coming to St. Louis Mrs. Brown lived at Staunton, Mo., where she was divorced from Charles Faenger. She did not learn that Brown was under 21 during the period of their courtship, it was stated.

MAN FOUND DEAD; GAS JET ON

Apparently Accidentally Failed to Turn It Off, Relatives Say.
Samuel McClellan, 56 years old, who roomed with relatives at 1918A Mallinckrodt street, was found dead in bed at 6 a. m. today; the room filled with gas from a light jet which was partly turned on.

POLICE HALT SUICIDE ATTEMPT

Police broke into the bathroom at the home of Henry Gaertner, 84 years old, 4642 Pope avenue, at 3 a. m. today, and found Gaertner in the room with a rubber hose in his mouth. The other end of the hose was attached to an open gas jet.

A SALE OF ENSEMBLE AND TWO-PIECE SUITS

The Price Is as Exceptionally Low as
the Quality Is Exceptionally High

\$25

NEW arrivals in Spring's Ensemble and Two-Piece Suits enable us to give better values than ever at this feature price, and styles and fabrics that have every appearance of belonging in higher-priced groups.

The Ensembles are of flannel or twill, in sport colors or navy, with Frocks of crepe de chine or matching fabrics. The Two-Piece Suits provide new Spring modes in twill, twillbloom or Poiratsheen, in navy and wood shades—the Coats in finger-tip or hip length, smartly crepe lined.
(Suits Shop—Third Floor.)

FOR SPRING—FUR-BELOW COATS

It is a real merchandising achievement that brings Coats of such matchless quality to sell at such a low price. They are of Poirat twill, Poiratsheen, flannel and kashmir—all with crepe linings, and many with deep bands of long-haired fur adorning the hem.

(Coat Shop—Third Floor.)

Idaho Antislavery Bill Rejected.
BOISE, Idaho, Feb. 22.—By the narrow margin of one vote the

House of Representatives has failed to pass the antislavery bill, de-

signed, according to its framers, to prohibit the leasing of land to Japanese farmers up to Dec. 31, 1924.

ONE OF TRIO IN \$750 FRAUD ARRESTED—ON POLICE 'HUNCH'

Louis Friedman, Ex-Convict, Confesses Part in Swindling Tailor After Arrest.

Louis Friedman, 35 years old, former convict, was at Sarah and Olive streets yesterday arguing vehemently with a chance acquaintance, when Police Captain Edward Doyle of Newstead District drove by. Doyle never had seen Friedman before, but something told him, he says, that Friedman "ought to be arrested."

So Friedman was taken to Newstead Station for investigation. Checking back, Doyle discovered a similarity in the description of one of three confessed men who got \$250 cash and \$250 jewelry from Harry Levinson, tailor, at 642 North Euclid avenue, in exchange for a tin box containing glass treated to resemble diamonds and brass which resembled gold. Feb. 2, Levinson and his wife were summoned.

"That's the man from Granite City," they said.

According to Doyle, Friedman admitted he was a party to the fraud. He has served terms for swindles in Chicago and Philadelphia, he said. The two other men took most of the \$750 which Levinson gave as security when the box was left in his care, and abandoned him as the three had abandoned Levinson, he explained. He went to Memphis after the swindle, he said, and returned to St. Louis yesterday.

BILL TO RAISE REQUIREMENTS FOR BAR ADMISSION DOOMED

Senate Committee Reports Duplicate of House Measure Without Recommendation.

Special to the Post-Dispatch.

JEFFERSON CITY, Feb. 22.—The legal education bill, drawn by the Missouri Bar Association and designed to raise the educational requirements for applicants for admission to the bar, was reported without recommendation yesterday afternoon by the Judiciary Committee of the Senate. The action means the measure will take its regular place on the Senate calendar just as though it had come out with the approval of the committee. The bill is a duplicate of one rejected by the House of Representatives several days ago.

The action of the House and the fact that it was impossible to obtain a favorable report in the Senate Committee makes it virtually certain the bill will die. It is doubtful that it will ever come to a vote in the Senate. Arguments for it by a number of members of the Bar Association, including former Senator Willey of St. Louis, president of the association, former Supreme Judge Fred Williams, Guy A. Thompson and others, were heard by the Senate Committee yesterday.

FLORIDA COUNTY PROSECUTOR HELD FOR WOMAN'S DEATH

Coroner's Jury Finds Teacher Died From Gunshot Wounds Inflicted by Official.

MAYO, Fla., Feb. 22.—Percy B. Howell, Prosecuting Attorney for the County Judges' Court of Lafayette County, and counsel for the Board of Commissioners, is in jail at Live Oak, charged with the death of Ina Felton of Mayo. Miss Felton died early last Wednesday from a gunshot wound in the head. First reports were that she had killed herself but following an investigation of the case the coroner's jury returned a verdict that "she came to her death by gunshot wounds from a weapon in the hands of P. B. Howell," County Judge Hal O. Adams ordered Howell taken to the Suwannee County Jail for safekeeping, pending action of the grand jury next June. Miss Felton was a former student of the Florida State College for Women and had taught school for about two years. At the time of her death she was assistant to the principal of Mayo High School.

GLORIA SWANSON OUT OF DANGER, DOCTORS ANNOUNCE

Actress Passes Excellent Night and Her Condition Is Greatly Improved.

PARIS, Feb. 22.—Gloria Swanson, film actress, who underwent an operation last week, passed an excellent night, says a report from the clinic where she is resting. Her condition this morning was greatly improved, her fever having distinctly diminished.

A bulletin issued this forenoon regarding the actress' condition says: "Improvement continues. The patient is out of danger. Temperature 37.2 centigrade (98.96 Fahrenheit)."

Throat raw?

Endorsed by more than 10,000 physicians

"Only a sore throat" means that germs are at work—poisoning your whole body.

Give it continuous antiseptic treatment at once—not just a gargle night and morning.

Get a bottle of Formamint, and every half hour, or hour, dissolve one of the pleasant-tasting tablets in the mouth.

Formamint releases in the throat a powerful yet safe antiseptic that keeps up the germicidal action long enough really to kill germs.

And this all-day-long treatment clears up the trouble as the action of a spray or gargle cannot do.

To prevent infection take a Formamint tablet about every two hours.

Ask your druggist.

Formamint

GERM-KILLING THROAT TABLETS

Looking Over the Fence

It's much more pleasant to rest your elbows on the fence and gaze at your neighbor's well cultivated field than to do a little hard digging in your own.

The person who rapidly forges to the front is the one who concentrates in his own field, simply regarding his neighbor's successes as a spur to his own activities.

BROOKLYN POLICE INFORMANT CONFESES DOZEN BURGLARIES

"Friend of the Force" Is Caught Robbing Store After Misdirecting Patrolman.
Special to the Post-Dispatch.
NEW YORK, Feb. 25.—For 25 years, practically everybody who has known William Shepard at Jamaica has spoken of him in superlatives. A "friend" of every policeman, Shepard has gone out of his way scores of times to inform on "suspicious persons" in the neighborhood, to inveigh against the criminal element and generally to make of himself "the best force for law and order in the district." His wife says he is the best husband in the world, and his superiors in the Brooklyn Manhattan Rapid Transit Co., by which he was employed as an inspector, say he was one of the best they ever had. Today he is behind the bars at the Jamaica police station awaiting examination on a charge of committing a dozen burglaries under the very noses of his friends, the Jamaica police. The police say he has confessed. Shepard was captured in the act of robbing a cigar store 10 minutes after he had sent the policeman on the beat in another direction on the trail of two mythical persons. The relief patrolman, Charles Schaeffer, walked past a cigar store and discovered that the usual light was not burning. Summoning another policeman, he found a man working at the safe in the rear. The burglar fled into a closet when the patrolmen opened fire. And there, the patrolmen found their old friend, Honest Bill Shepard, model citizen, husband and workman. Beneath the ample folds of his blue inspector's coat, they found a whole kit of safe-cracking tools. In the pockets they claim to have found \$40 which Shepard had taken from the cash register.

TAX COMMISSION WATCHED FOR ASSESSMENT INCREASE

City Comptroller on Guard Against Repetition of Arbitrary Advance of Last Year.
The City Comptroller's office is watching the State Tax Commission this week, to see whether the Commission intends to make an increase in St. Louis personal property assessments, as was done last year. Comptroller Nolte said today that he had not heard of any such intention on the Commission's part, but that he had instructed former Senator H. W. Blodgett, who represents the city's interests at Jefferson City, to watch the matter, particularly tomorrow. The Commission has set a series of days for considering different congressional districts, and hearing any taxpayers who may appear. Tomorrow is the day set for the St. Louis districts, the Tenth, Eleventh and Twelfth, St. Louis County being also included in the Tenth. The State Tax Commission last year decided that the assessments of St. Louis personal property must be increased 20 per cent. As the City Assessor had made up his books at the time when the order was received, no way was seen to meet this demand but to make an indiscriminate 20 per cent addition to all personal property assessments, and this was done. When the result appeared on tax bills last fall, there were many complaints, and some refused to pay the increase, on the ground that no notice had been given them. The increase in personal property assessments added about \$300,000 to the tax collections here.

VOTERS TO DECIDE INCREASE IN PAY FOR FIREMEN APRIL 7

Proposal to Increase Pay to \$180 a Month Would Cost City \$280,000 a Year.
Initiative petitions filed by the Uniformed Firemen's Association have been found by the Election Board to contain sufficient valid signatures to get the proposal on the ballot at the city election of April 7 for an increase of \$25 a month in the salary of all city firemen below the rank of Chief and District Chief. Valid signatures of voters on the petitions were found to number 25,809, while 7818 names were rejected, chiefly because they could not be found on the registration books. The minimum number required was 21,493. The proposal, if approved by the voters, will increase the pay of the bulk of the firemen to \$180 a month and will cost the city about \$280,000 a year.

FIRE IN FEDERAL BUILDING TOP

Flames in Cupola Cause Much Excitement But Little Damage.
A fire in the cupola of the Federal Building, Eighth and Olive streets, this morning, caused considerable excitement and negligible damage. The two passenger elevators were not in operation and firemen were compelled to use the stairs to the fourth floor, and climb a spiral stairway to the cupola. The fire was finally extinguished by chemicals. The cupola, a box-like steel room at the top of the dome, is being removed as a safety measure. Workmen were using acetylene torches to cut the steel, and sparks from the torches are believed to have ignited some rags.

Three Bank Officials Sentenced.

By the Associated Press.
ARDMORE, Ok., Feb. 25.—Harold Wallace, former official of a defunct State National Bank here, convicted yesterday of making false reports to the Comptroller of the Currency, was sentenced today to serve one year in jail by Federal Judge Davis of the Eastern District

of Missouri. J. W. Richardson, also an officer of the bank, who was convicted with him, was sentenced to serve six months and W. W. Jeter, a third officer, who pleaded guilty, was given three months.

BROWN CAB CO.

Offers an Economic Service to Businessmen

Why bother driving your car down to work every morning and then spend 30 minutes seeking a convenient parking space. Not only that, but during the day, take a chance of some careless driver running into it, or having your radiator freeze during cold weather.

Just step to the phone and call Forest 1234 and in a jiffy a YELLOW or BROWN CAB will be at your door. In 15 or 20 minutes you are at your desk downtown.

5 Can Ride as Cheap as 1

No Charge for Extra Passengers

Arrange with two, three or four of your friends to make the trip every morning, and when your day's work is done, have a YELLOW or BROWN CAB take you home. You can "chip in" and the cost to each individual will be trivial, for now 5 can ride for the same fare as one, and there is no charge for extra passengers.

Hail Them Anywhere Brown Cabs and Yellow Cabs

Beauty

A Gleamy Mass of Hair
35c "Danderine" does Wonders for Any Girl's Hair

Girls! Try this! When combing and dressing your hair, just moisten your hairbrush with a little "Danderine" and brush it through your hair. The effect is startling! You can do your hair up immediately and it will appear twice as thick and heavy—a mass of gleamy hair, sparkling with life and possessing that incomparable softness, freshness and luxuriance. While beautifying the hair "Danderine" is also toning and stimulating each single hair to grow thick, long and strong. Hair stops falling out and dandruff disappears. Get a bottle of delightful, refreshing "Danderine" at any drug or toilet counter and just see how healthy and youthful your hair becomes.

Rich Bachelor Wants Wife

"Many people have blamed me for not getting married. Since childhood I have suffered from stomach and liver trouble, never being able to get any medicine or doctor to help me. Now that Nature's Wonderful Remedy has entirely cured me, I am anxious to get a wife." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Wolff-Wilson Drug Co., Judge & Dolph Drug Stores and Druggists Everywhere.

day, probably according to supply and demand. One day there may be 43 crowns to a napoleon and the next day 47. There are no banks or stock exchanges in Tirana, but apparently some merchant must fix the ratio daily, for half an hour after sunrise every shopkeeper knows the official quotation for the day.

Prices Range From \$1275 to \$1925

FUNDING OF HALF OF U. S. WAR LOANS BEGUN

Settlements Made With 5 of Nations of Payment of \$4,772,000,000.

By the Associated Press.
WASHINGTON, Feb. 22.—The recurring discussion of refunding the obligations of France to the United States has directed attention to the fact that the American Debt Commission has accomplished funding arrangements for approximately half of the loans made by this Government during and after the World War.

At the time the commission was created there was due the United States \$10,102,000,000 in principal, plus interest in excess of \$1,150,000,000. The commission now has negotiated settlements with Great Britain, Poland, Lithuania, Hungary and Finland, and the Cuban Government has paid its ten-million dollar obligation in full. The funding agreements provide payments over a period of about 42 years as follows: Great Britain, \$4,577,000,000; Poland, \$178,560,000; Finland, \$8,555,000; Lithuania, \$6,030,000; and Hungary, \$1,955,542.

The status of other debts is summarized at the Treasury as follows:

Armenia: There is no Government recognized by the United States.

Austria: The time of payment of principal and interest was extended by Congress until June 1, 1942.

Czechoslovakia: Representatives of that nation left the United States in July, 1922, saying they would continue their efforts to adjust differences between the accounts of the two countries, but have made no proposals or representations for refunding. Differences existed as to the validity of a claim by this Government that Czechoslovakia owed certain sums for transportation furnished that nation's troops.

Estonia: The Estonian Minister has placed in the hands of the commission information regarding financial and economic conditions in his native land and informed Secretary Mellon that his Government desired to negotiate a settlement, but no agreement has been reached.

Jugoslav Commission.

Latvia: The commission was advised in May last that the question of funding that Government's debt was under consideration by the Latvian Cabinet, but no proposals have been received.

Russia: There is no Government recognized by the United States.

Jugoslavia: The Government of the kingdom of the Serbs, Croats and Slovenes sent a commission to the United States to inform this Government that it was the intention of their Government to present a refunding plan at a later date, but advised the commission April 7 that the settlement plan could not be offered at that time because of conditions in their homeland. The mission of these representatives was one of supplying this Government with all facts concerning the situation in the kingdom, their communication to Secretary Mellon stated.

No proposals have been received from France, Belgium, Italy, Greece, Liberia, Rumania or Nicaragua.

FRENCH CHURCH OF FIFTEENTH CENTURY DESTROYED BY FIRE

Sacred Relics and Vessels Housed in St. Jean-du-Doigt Saved

By Villagers.

MORLAIX, France, Feb. 22.—Fire destroyed the fifteenth century Church of St. Jean-du-Doigt, near here, one of the most famous shrines in Brittany, during a storm yesterday.

Lightning struck and set fire to an adjoining house and the flames ignited the church steeple. The villagers formed a bucket brigade but their efforts were fruitless, and many wept as they saw their beloved church consumed.

The famous reliquary containing a finger of John the Baptist, which drew pilgrims from all Brittany, was saved, as were the ancient sacred vessels, one of which is attributed to Benvenuto Cellini, a number of enameled and old statues. The wonderful carved wooden Calvary is feared to have been damaged irretrievably.

St. Jean-du-Doigt was well known to the American art colony in France, many painters being in the habit of visiting it during the summer.

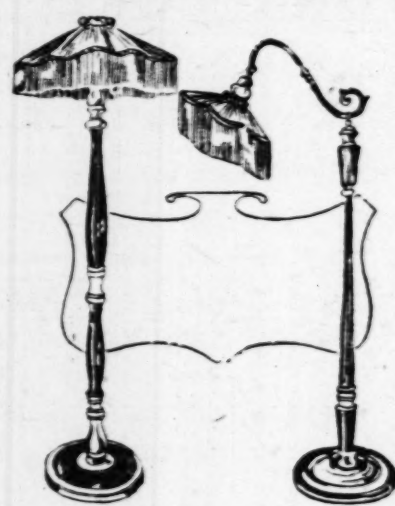

"BABY" CONGRESSMAN HERE

Samuel J. Montgomery, 28 years old, of Bartlesville, Ok., the "baby" of the new Congress, representing the First Oklahoma District, arrived in St. Louis this morning en route to Washington and visited for a few hours his mother, Mrs. E. H. Elko of 4 Forest avenue, Webster Grove.

Montgomery was a marine in the war and received five citations for bravery. He was elected last November on an anti-kan platform, more bravery—in Oklahoma.

Anti-Japanese Bill in Kansas.

TOPEKA, Kan., Feb. 22.—Japanese and Chinese would not be permitted to acquire, own or lease for more than three years, any land in Kansas under a bill approved yesterday by the Lower House of the Legislature in committee of the whole. Speaker Hope of Finney County declared the bill was intended to frustrate plans for an Oriental invasion of the Arkansas River Valley.

WHY IS A FAILURE?

By Sophie Irene Loeb

DURING the first of the year a young man was taken in as a partner in a large manufacturing concern. His friend, who started with him in the same business, is occupying the same position and receiving almost the same salary with which he started. The latter might be regarded as a failure. He will not be promoted in this enterprise, a fact which is a great disappointment to him.

SOPHIE IRENE LOEB

There is a big reason why one man goes forward and other stands still in business. "Now here are two young men. Both went to the same school, are seemingly of equal intelligence, similar families and are great friends. One is made a partner and the other is not. This is the reason:

John, who has been made one of us, was told to do a thing when we give it to him to do. Frank, the other, may or may not accomplish it. There it is in a nutshell.

"I will cite one example of how it works out. A short time ago I was in Chicago and wired Frank to get a certain kind of material that I needed; to send me a sample of it by special delivery, as I wanted it, and in it was involved a very large order.

"Frank wired me that he had tried everywhere and was unable to secure it. I was almost beside myself with chagrin because I knew it could be found and if I were there I would do it.

"When I went into the matter, I found that Frank merely took for granted, when he telephoned everywhere, that such a place was not to be found. John went over exactly the same ground, but demanded a complete search. He was not satisfied that this had been done, but went to the places himself to look for it—and eventually found it."

In similar ways, it is the man who delivers the goods that counts in the scheme of things. And while the other fellow may put forth a great deal of effort and is appreciated for trying, he loses out because he has not exhausted every kind of effort.

After all, the men in the big places are those who are so resourceful that nothing escapes them, and things are accomplished at any and all hazards.

So it is in the every day. Everywhere you go you will find one worker who, having made the effort to accomplish something, thinks that is all that can be expected of him. But it certainly does not get the promotion. It is the man or woman who will not accept defeat, who persists in pursuing until he is thoroughly satisfied—he is the one that usually gets the result.

Rebut is what the world is after, and the item that counts in the long run. Of course, one may fall down occasionally on accomplishing some task he is given, but if he continues to make this practice, he becomes naturally undependable. You will not be certain whether the thing will be done.

The great assets of the day, not only in the business world but everywhere, are the persons upon whom you can bank—that is to whom you will give a job and feel fairly certain that it will be done. And the reason for their reliability is that they rely upon themselves, the anxiety and feel the responsibility.

That is the big essential to be thoroughly interested in completing it rather than doing the thing merely as a matter of duty, or because you are paid.

And the "failure" usually thinks he is very much abused. His kind takes the tasks to do, but do not accomplish them, and seem to get nowhere. Usually, however, the people who do nothing are the ones who think they are imposed upon.

The successful man performs what is asked of him—even in the smallest things, and therefore his faculties are developed to cope with the bigger ones. Nearly every failure may search deep and learn if he has actually tried hard enough to produce what was asked of him, rather than make the mere motion to do it.

Foods You Need.

IF YOU are doing outside work and are exposed to cold and storm, let your breakfast cereal be oatmeal or cornmeal. You require good, heat-producing foods such as fat meats, rich gravies, eggs, cornbread, nuts, sugars and honey.

If you are a brain worker, the food you eat should be rich in sulfur and phosphorus, such as fish,ysters, lobsters, crabs, game, eggs, cheese, potatoes, dried legumes, apples, whole cereals and milk.

SAYINGS OF MRS. SOLOMON

By HELEN ROWLAND

NEVER THE TWO SHALL MEET!

ALAS, my Daughter, as ships that travel by different routes unto the same port, so are a man and a woman in love. They say, "Lo, how perfectly do we UNDERSTAND each other!" Yet, they speak not the same language, and see not with the same vision.

For, behold, to a woman, marriage is a salvation from loneliness and a relief from financial responsibility. But, unto a man, marriage is a salvation from OTHER women, and a relief from moral responsibility.

And every man looketh upon a wife, as someone to keep him out of temptation and get him into Heaven.

Go to. A man feareth love, as a sleeping sickness, and a deadly drug which shall reduce him to a state of hopeless mental inertia and helpless dementia.

But, a woman welcometh love as a sweet draught, and a harmless opiate, which glorifieth all the world and produceth beautiful dreams.

Lo, to a man, a proposal of marriage is a sudden shock, like unto the wrecking of a telegraph pole, which he hath endeavored to avoid; even a calamity which hath overtaken him, when he was off his guard.

But, unto a woman, a proposal of marriage is as the blossoming of a flower, which she hath planted, the fruit of much concentration, and the vindication of her charms in her own eyes.

Alas, to a man an "engagement" is as the death-watch before the execution. Yea, it is a long state of helplessness and terror, wherein he perceiveth himself drifting into an unknown harbor, yet hath not the power to turn aside and flee.

But, unto a woman, an engagement is a beatific and blissful time of dreaming, wherein she watcheth the magic transformation of a lover into a husband, and the turning of a pulse-beat into a heart-beat.

Behold, unto a man, a wedding is a public pillory, wherein he is "nailed down," and his weakness and folly exposed to all the world. It is, unto him, life's supreme sacrifice!

But, unto a woman, a wedding is the public vindication of her prowess, her coronation before the multitude, the climax of her life—drama and love's perfect sacrament!

SELAH.

Children's Bedtime Story

By Thornton W. Burgess

A Worried Prisoner

Folly will to worry lead,
A thing for which there was no need.—Peter Rabbit.

AT first Peter Rabbit was too much relieved at having escaped from Reddy Fox to do any worrying about the future. He didn't even complain to himself because he was so uncomfortable. The hole he was in at the back of Buster Bear's cave wasn't much more than a deep crack. Peter couldn't even lift his head. There was just room for him to lie flattened out with his hind legs straight out behind him. But he was safe, and that was everything just then.

But after a while Peter became so uncomfortable that he tried to wriggle into a more comfortable position. By kicking and squirming and wriggling he managed to get turned around so as to face that narrow opening. It was dark in Buster Bear's bedroom, so Peter couldn't see out. But his wabbling little nose told him that Reddy Fox was sitting just outside that narrow little entrance. Even then Peter didn't worry. He felt sure that Reddy would grow tired after a while and would give up trying to catch him.

Now Reddy Fox was very comfortable. That bedroom of Buster Bear's was a very snug and comfortable place. Reddy decided that he couldn't find a better place to take a nap, so he curled up right in front of the little hole in which Peter was so uncomfortable. He knew that Peter couldn't possibly get out of there without waking him. In no time at all he was enjoying a nap.

Poor Peter! He was so uncomfortable and so cramped that

But his wabbling little nose told him that Reddy Fox was sitting just outside that narrow little passage.

It seemed to him that he couldn't stand it much longer. Then at last he began to worry. He knew by little sounds that reached him that Reddy Fox was asleep. His wabbling little nose told him that Reddy was asleep close to that entrance. He knew that he couldn't possibly wriggle out of

A New Way to Display Table Linens

The art of the French people is clearly pictured in this elephant made entirely of table linens on display in a well-known Paris department store, the elephant is two stories high and shows how art can be applied to commerce profitably.

HOUSEHOLD SUGGESTIONS

Whipping Table Cream.

If you are going to try to whip ordinary table cream, add an unbeaten egg white before beginning to whip. Your chances of stiff cream will be greater.

Did It Ever Occur to You.

That huge gold-framed mirror so beloved in the time of our grandmothers can be cut into desired sizes and frames and you will have a quality glass impossible to purchase these days at any price.

Blanket Protection.

When making the bed pull the upper sheet toward the head of the bed so that when the bed is made the sheet is about six inches longer than the blankets and other covers. Then the sheet can be turned back over the blanket and comfort which will prevent these heavier coverings from becoming soiled at the top.

For the Absent-Minded.

If you are inclined to leave packages, pocketbooks and umbrellas around promiscuously why not see that they are tagged with your name and address, so that if they are lost you stand some chance of their being returned? If you are shopping, write your name and address on your package as soon as purchased.

Making a Good Cream to Whiten and Soften the Skin

By LUCREZIA BORI, the Famous Spanish Prima Donna

LUCREZIA BORI

EVERYONE takes such pleasure in viewing a skin which is as delicate and white as a baby's that all of us must appreciate the blessing of a skin which answers to the description.

Most of us authorities on beauty consider a lovely skin the most important requisite in true beauty. This is indeed a just estimate, for we all know that the woman who has a lovely, soft skin like a baby's appears really pretty whether her features are especially good or not.

On the other hand, the woman who would be a beauty except for her unattractive complexion, is far removed from the ranks of beauty until she improves her complexion so that it may be considered in the ranks of beauty.

Now, improving the complexion in some cases is, I realize, a difficult and stubborn job. Some women whose faces are prone to break out all over the surface in unsightly bumps have often traveled all over the country consulting spe-

cialists as to the cause and cure of their unfortunate malady. Very often these extreme cases are caused by an acid condition of the blood, and some of them are very slow to be cured, even with the strictest diet.

Most skin blemishes, however, are not so stubborn, and yield to a carefully regulated choice of food. Avoiding acids and drinking plenty of water and eating plenty of green vegetables and getting lots of sleep and fresh air are the best curative and preventive measures there are.

If you keep before your mind a vision of the soft, white, lovely skin you would like to possess, you will doubtless find it less difficult to deny yourself the tempting sweets and acid foods that you crave. You will realize that they are not worth to you the price of a lovely soft skin that will charm its beholders, and you will be able to refuse them without a pang.

Here is a cream that you will find excellent for whitening your skin:

Fine oatmeal.....1 teaspoon
Water.....1 pint
Rosewater.....to pour easily
Glycerin.....1 ounce
Begin by heating your water until it boils, and then stir this into your cup of oatmeal, pouring it in gradually. You will do well to use a double saucepan to prevent any possibility of burning. Let this all over the country consulting spe-

What to Serve Tomorrow

BREAKFAST.

Baked apple.
Ready-to-eat cereal.
Creamed, chipped beef.
Rolled eggs.
Coffee, cocoa, milk.

LUNCHEON.

White cherry-crumble sandwich.
Whipped cream cake.
Coffee, tea, milk.

DINNER.

Swiss steak.
Potato puffs.
Creamed celery.
Pear-chicken salad.
Chocolate cream pie.
Coffee, tea, milk.

Whipped Cream Cake.

One cupful sugar, two eggs, beaten, one cupful flour, with two teaspoons baking powder, one teaspoonful cream, half cupful scalded milk, cream whipped, sweetened, and folded in. Beat eggs in bowl, add sugar, then flour and baking powder, mix melted pour over flour. Stir until smooth, add a greased tin and bake in oven about 15 minutes. Spread with whipped cream.

Potato Puffs.

With freshly mashed mix salt, pepper and the egg. Let stand for seven or eight minutes. Form small balls, dip in slightly egg white, roll in fine crumbs, fry in deep hot fat. They are light and golden. Serve on a napkin-covered plate.

Colonial Chicken.

Select two young chickens six pounds in all, clean them joint in the usual way, then joint in a saucepan, large onion, a bunch of parsley, cover with water and boil until tender. Lift the bones from the meat, remove the meat from the bones. Throw the bones in a large pot of boiling water, add a half cup of vinegar, and boil for a half hour. Strain the liquid, add the chicken, and cook for an hour. Serve hot or cold.

Cabbage à la Gratin.

Cut one-half head of cabbage into small pieces, wash, and drain. Boil in salted water for 10 minutes. Drain, and add butter, salt and pepper and cook now for 10 minutes. Cover with a thin white sauce, sprinkle with bread crumbs and bake in a hot oven for 10 minutes. Serve in the dish in which it was cooked.

mixture boil until it becomes looking like a strain in the cloth. Boil it again and once more. To this add rosewater so that it pours and later add an ounce of sugar. You may perfume the mixture as desired. Knead and shake the bottle well, using. Apply this to the skin every night.

**'BOLTING' INDIANA
SENATORS STICK
TO OHIO REFUGE**

Fourteen Democrats Refuse
to Acknowledge Warrant
for Their Arrest Served
by Doorkeeper.

**TRUCE FOR THEIR
RETURN SUGGESTED**

Leader of "Strikers" Says
They Will Go Back if
G. O. P. Withdraws Opposed Measure.

By the Associated Press.
DAYTON, O., Feb. 24.—Confident that they were outside the reach of the law, 14 Democratic Senators of the Indiana General Assembly rested in Dayton today.

Jerome Brown, 63 years old, principal doorkeeper of the Indiana Senate, mandated to bring back the "bolters," arrived in Dayton last night with a blanket warrant for the arrest of the men. The warrant was served on all but two members early today.

Brown said the men fairly refused to acknowledge the instrument. They challenged his authority, he added.

Doorkeeper Brown shortly before noon was ordered to return to Indianapolis. He said President Pro Tem James Neff told him to come back.

The Democratic Senators arrived here in a chartered motorbus last night, having quit the Indiana Legislature because of unfair legislation. The charge centered around a bill which they declared would give the Republicans an additional Congressman, if passed.

Senate Unable to Function.
As a result of the "strike," the Indiana State Senate was unable to meet on bills for want of a quorum. The Senate consists of 26 members, 12 of whom are Republicans and 14 Democrats. Thirty-four constitute a quorum.

Two other members of the minority were reported to be in Cincinnati yesterday. It was said by their fellows that they probably would be in Dayton today.

The other two Democrats in the upper chamber are in Indianapolis. Democratic Senators said they had talked with the secretary of Gov. Donahay of Ohio and had been assured they could not be arrested by Brown. They were in his house and greeted Brown with cheers and applause upon his arrival. Every effort was made to make the doorkeeper comfortable.

Undecided. Brown got in touch with James Neff, President pro tem of the Senate. He was told to remain close to the "bolters" until given further instructions.

Threaten to Hold Out.
Most of the "strikers" appeared to take the situation lightly. They talked, however, that they would remain away until after March 3—the end of the session—unless assurance is given that the bill in question will be withdrawn. Dayton probably will be their headquarters, they added.

Among those in Dayton is Walter S. Chambers of Newcastle, chairman of the Indiana Democratic State Committee.

Senator Joseph Cravens, Senate minority leader, has issued two statements since reaching Dayton. He attacked the Indiana Republican administration's single unit bill, terming it "political vengeance" and asserting it would not accomplish its purpose. He said the congressional bill was for another purpose than to get its author, Senator Will X. Penrod of Logansport, into Congress and strengthen the Republican party in the State.

Although the men declared they were ready to stay for 15 days, very few of them brought a change of clothing. Combs were at a premium. When bedtime came last night they were forced to share their rooms.

"Hope" a Moving Van.
Harvey Harmon, attorney, missed the bus in which the Democrats fled from Indianapolis. Undaunted, he "hopped" a moving van on the outskirts of the city and arrived late in the night, tired, disheveled and cold. He was enthusiastically greeted, especially by the opposition Senators who did not know the fact they numbered 12.

The Indiana law provides that any legislator who willfully prevents a quorum may be arrested and fined \$1,000.

Senator Cravens was in communication with Harold van Dusen, Indiana Lieutenant Governor and president of the State Senate, during the morning. It is understood he suggested the withdrawal of the bill which brought about the walk-out.

**The Man on the
Sandbox** by
L. C. Rame

SO LONG, HENRY.
THE Mayor has decided not to run. The dying swan has sung his plaintive ditty! But Henry says he had a lot of fun while serving as the Mayor of our city. Though oft deprived of due appreciation, He says he dearly loved the situation.

So Henry has agreed to step aside and let the others fight it out among 'em. But, to his record Henry points with pride. And tells the voters he has never stung 'em. His object was to keep the boys all working. Though half the time, perhaps, they would be shirking.

His twelve-year tenure at the City Hall. Its happy end now rapidly is nearing. He was the noblest Roman of them all. At laying corner stones or banqueting. At dedications we will miss the Mayor. Of corner stones he was the champion layer.

At benefits and many social routs. Or functions where good fellows got together. His Honor would be there or thereabouts.

In spite of hok, highwater or the weather, We hope that his successor will be able To bat for Henry at the banquet table.

ATTA SPIRIT!
See where the Congressmen purpose to earn their increase in pay by putting over a further decrease in the income tax. Hearing no objections, the ayes have it.

"Please Don't Sing Mayor of Nice Asks Mrs. Walska."
A bird that can't sing but will sing should be requested not to sing. Riding miles and miles on an electric hobby horse would be all right if the scenery didn't become so monotonous.

We take it the next horse show will have a class for one-gaited electric saddlers.

Paul Revere had a horse, but it didn't run by electricity.

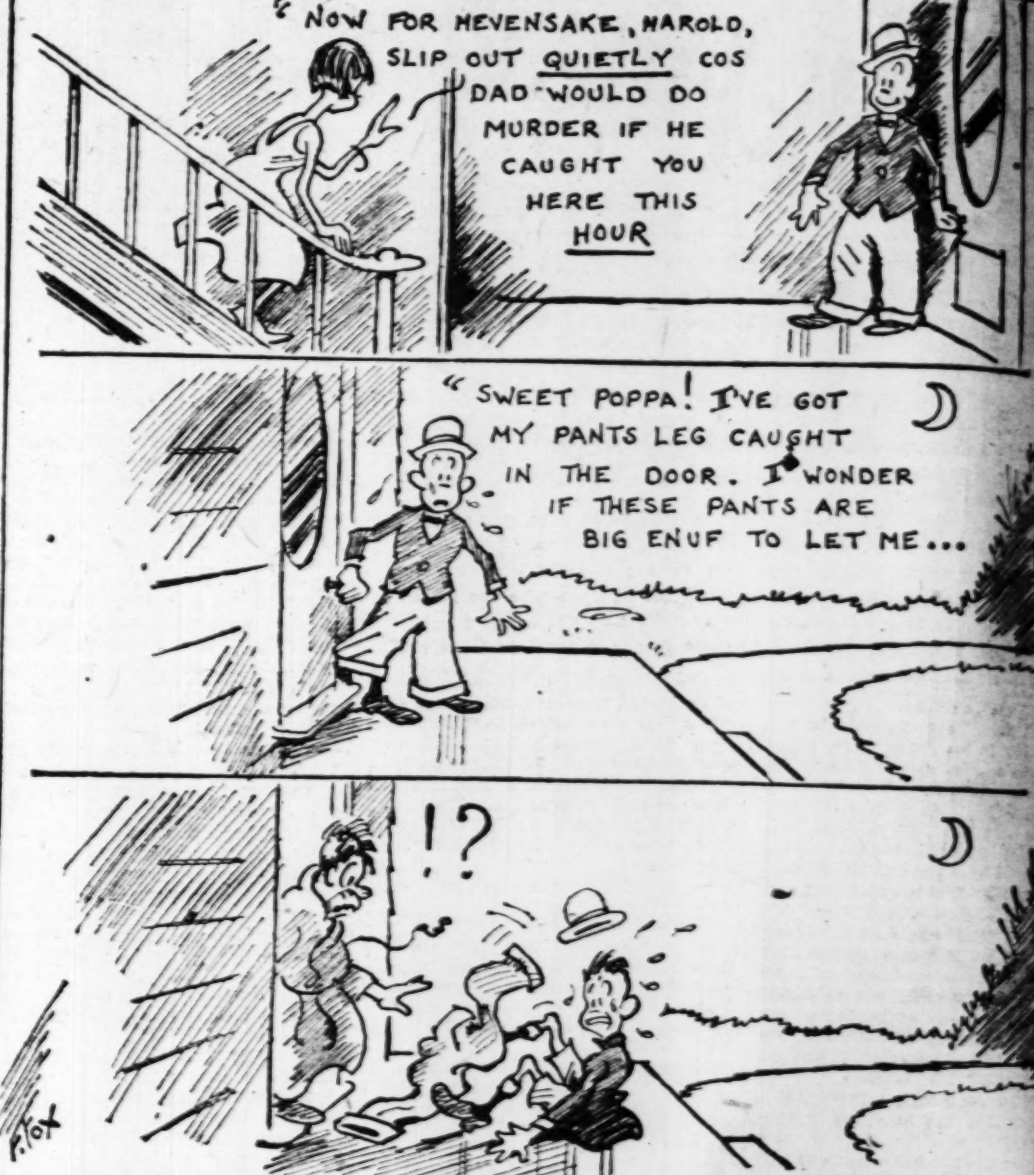

"Filibuster on Shoals Bill Is Threatened."
Indicating that the bill is on the shoals.

A British golf expert picks Bobby Jones as the best golfer in the world and Hagen next. Praise from St. Andra's is praise, indeed.
